

MIND ENHANCEMENT COMPLEX

As with any other physical aspect of the body, mental functioning tends to weaken when faced with various forms of stress, including everything from simple fatigue to degeneration linked to ageing. Master herbalists have long known that our capacity for focused concentration, clear thinking and accurate recall can be supported and even enhanced with an appropriate mix of herbs that help meet the brain's critical need for optimal blood circulation, and help protect our precious cerebral tissue from free radical damage associated with mental decline. Neolife's Mind Enhancement Complex promotes a "normalising effect" on the nervous system, helping to stabilise and enhance mental function to promote peak mental performance and acuity.

60 tablets

Why choose herbs to support mental performance?

- Because herbs have been proven effective from centuries of use.
- Because herbs have a long history of safe use, without the side effects associated with chemical drugs.
- Because herbs are nature's solutions to wellness challenges.
- Because herbs are non-habit forming.
- Because herbs can act as a tonic and provide a "normalising effect" on the nervous system, stabilising and enhancing mental function.
- Because herbs have been shown to help restore physiological balance to help the brain perform at its vital best.
- Because herbs have been shown to enhance cerebral blood flow which is essential for facilitating the supply of nutrients. These herbs also help to facilitate mental longevity.

Why NeoLife's Mind Enhancement Complex?

- **Comprehensive formula.** Our unique "complete family" approach to the formula provides broad, synergistic effects of the herbal constituents, optimising their ability to promote mental performance and acuity. Herbs work together to complement and enhance effectiveness.
- **Herbs are selected from many global traditions,** bringing you the best herbal knowledge from around the world.
- **Contains Ginkgo biloba** (leaf) which has been shown to support blood vessel flexibility, improving blood flow to the brain. Ginkgo also contains powerful antioxidants that may help promote the longevity and function of cerebral tissue.
- **Contains Gotu Kola** which has been associated with mental clarity and enhanced memory function by both Western and Asian herbalists.
- **Contains Red Sage** which helps increase alertness and ability to concentrate. Strong antioxidant properties may also support microcirculation within the brain, helping to minimise age-related decline.
- **Guaranteed purity, potency and consistency.** The most recent advances in analytical sciences and the most advanced herbal processing techniques provide the finest in standardised herbal extracts.
- **Derived solely from nature's herbs,** containing no chemical or animal products.
