

The daily diet is the only source that the body has of obtaining the nutrients it requires. Dietary gaps result from poor dietary habits that can lead to nutrient deficiencies. A broad spectrum, comprehensive formula, Multi, carries forward the Neolife tradition of nutritional excellence by providing an 'entry level' formulation that is iron free and delivers a daily supply of key vitamins, important minerals and trace minerals. Multi ensures that everyone has an opportunity to prevent the occurrence of dietary gaps which scientists have confirmed have definite health consequences.

Neolife Scientific
Advisory Board

#2558 – 30 tablets

Why take a daily vitamin and mineral supplement?

- Because the human body requires a wide variety of nutrients to be its healthy best.
- Because many diets may not provide the density and diversity of nutrients needed to assure optimal health.
- Because nutrients can become depleted by physical or emotional stress and must be replenished.
- Because vitamins and minerals are essential for optimal health.
- Because some substances that are critical for normal physiological function cannot be manufactured by the body and may be deficient in the diet.

Why Neolife's Multi?

- **Comprehensive formula.** Our unique formula delivers a broad spectrum of key vitamins, important minerals and trace minerals which are necessary for optimal body functioning - all working together to bridge dietary gaps.
- **Replaces trace minerals** that food processing strips away: selenium, chromium and molybdenum.
- **Convenient once-daily** regimen provides you with an abundance of the vitamins and minerals your body needs.
- **Iron free**, for those who already obtain sufficient iron in their diet.
- **Plant based** chlorophyll colour.
- **Preservative free.**
- **Convenient 1 month supply.**
