

NEOLIFE®

Tre-en-en®

Grain Concentrates

CELLULAR NUTRITION FOR
ENERGY AND VITALITY

Are You Tired of Feeling Tired?

In order for you to be your healthy, energetic best, your cells must be their best, too!

Because of today's "modern" food processing, cell-powering whole grain nutrients known as lipids and sterols have been stripped from our food supply. Without these essential food factors, energy and vitality are lost. This growing problem began to take hold over 50 years ago.

In the mid-1950s, a group of Southern California doctors made the connection between "chronic fatigue" and the absence of whole grain lipids in the diet and the resulting lower cellular energy production. This research led to the pioneering concept of whole grain lipid supplementation, from wheat, rice, and soya and resulted in the creation of revolutionary Tre-en-en.

Unfortunately, the problem still continues, and the deficiency in our food staples is compounded by the lack of whole grains in our diets. More and more people may be needlessly suffering from low energy due to the inability of their cells to perform optimally.

Tre-en-en®
Grain Concentrates
#2135 – 60 capsules
#2130 – 120 capsules

Unhealthy cell

Nutrients can't get in
Waste can't get out

Healthy cell

Nutrients get in
Waste gets out

Your Cells Are Hungry, Feed Them!

How to maximise cellular energy

Our cells are surrounded by special membranes that allow nutrients to get in and waste to get out. Lipids and sterols, natural constituents of whole grains, are critical components of our cell membranes. If these cellular membranes are starved of vital nutrients, they can become inflexible and can't perform these critical functions optimally. Whole-grain lipids and sterols allow our cell membranes to become their flexible best, making it easier for nutrients to get in and waste to get out.¹

NeoLife: Pioneers Of Cellular Nutrition

Tre-en-en is the world's first whole food phytonutrient supplement providing the goodness of whole grain lipids and sterols in a convenient supplement form. Tre-en-en has been proven to enhance energy and vitality by optimising cell membrane function. It energises your entire body by helping your cells function more efficiently.^{1,2}

Tre-en-en

Grain Concentrates

Powerful Nutritional Assurance²

- Enhance energy and vitality
 - Optimise cell membrane function
 - Improve cellular efficiency
 - Optimise growth and development
 - Enhance cardiovascular development
-

Whole Food, Human Food Chain Nutrients

WHEAT

RICE

SOYA

Tre-en-en Everyday:

- Diverse phytonutrient extracts provide critical nutrients every cell needs
- Cold-pressed and cold-processed to preserve nutritional value
- Easy to swallow capsules
- NeoLife products use only GMO-free ingredients

GLUTEN

Maximise Your Energy & Vitality

Tre-en-en provides **phyto-LIPIDS**, including healthy Omega-6 and Omega-3 fatty acids, and **phyto-STEROLS** beta-sitosterol, gamma-oryzanol, stigmasterol, and campesterol, plus octacosanol.

Tre-en-en Supplies Nutrients Food Processing Strips From Whole Grains

Tre-en-en Grain Concentrates help assure good nutrition at the cellular level by providing a unique and exclusive blend of whole food extracts. Wheat germ, rice bran and soyabeans provide these critical whole grain lipids and sterols missing from our diets.

Listen to the Harvard School of Public Health!

Harvard School of Public Health nutrition experts highlight the importance of plant-sourced oils (including whole grain lipids and sterols) as critical components of the grains layer of the USDA Healthy Food Pyramid, which appropriately symbolises the importance of whole grains as the foundation of good nutrition.³

Proven Performance

Study Conducted at Texas A&M University

Science has shown that lipids and sterols are required for normal cellular functioning, glandular activity, and overall growth and development. A series of studies conducted at Texas A&M University confirmed that when Tre-en-en is present in the diet, overall growth and development, nutrient utility efficiency, and cardiovascular development improved.^{1,2}

IMPROVED NUTRIENT UTILISATION EFFICIENCY

OPTIMISED OVERALL GROWTH & DEVELOPMENT

ENHANCED CARDIOVASCULAR DEVELOPMENT

The NeoLife Difference

Since 1958 we use only the finest whole food based nutrients, delivered in highly bio-efficient forms in exclusive, clinically proven formulas that maximise nutrient absorption, utilisation and benefits by using the most advanced scientific methods and proprietary processes.

NeoLife means “new life” which symbolises the power of giving your body the nutrients required to live a life full of health and vitality.
