Rave Cosmology is the esoteric and mystical side of Human Design.

For the first 18 years after the birth of Human Design, Ra Uru Hu focused on what was logical and empirical about Human Design. He often said: “Don't believe me and do not trust me. Try it for yourself; test it for yourself. This is mechanical knowledge that can be tested by each and everyone of us”.

Ra said, “Nothing has concerned me more than the legitimacy of this knowledge. It is why it is so important for me to explore the depths of design and personality to get to the very core and foundation of the knowledge. This is a true science, and it is a miracle science.”

Come join us in the Rave Cosmology Biversity and learn about how the Human Design knowledge ties together with the creation of our Biverse and the mechanics behind existence.

Try it for yourself; test it for yourself. This is mechanical knowledge that can be tested by each and everyone of us”.

Once Human Design was established as a practical yet transformational tool, Ra Uru Hu felt a responsibility to bring forward the mystical side of Human Design by sharing his experience directly with us. He empowered us to carry this information forward to share it with the rest of the world generation by generation. Teaching the Rave Cosmology of Human Design is the opportunity to bring balance to this knowledge and to show how vast and profound the source of this knowledge really is. As Ra said, “It is time to give the Voice its due and allow this mechanical, simple view of the cosmology to be accessible and to be available.”

Staffed by an eclectic and talented group of IHDS professionals, we offer a cross section of workshops, lectures and courses adding a new and exciting dimension to the IHDS. Whereas the IHDS Training Academy and the Science of Differentiation College focus on extended and detailed certification programs, the General Education opens the door to Human Design by creating an experiential dimension to the IHDS, and also a place to possibly ‘catch up and catch on,” or simply pursue a specific interest.

Are You Living Your Profile?
The Profiles’ Series

Start Date: May 17, 2019
Day of week: Fridays
Time of Lessons: 16:00 GMT
Number of Lessons: 5
Regular Price: $175.00
Early Bird Price: 

Each Profile looks and behaves so very differently. We know the 5th line Profile is designed to show how that Profile looks in public (vs the 2nd line that shows how that Profile behaves in private when left alone). It’s the Profile that brings a message or a solution, as a Heretic. God bless those 5th lines, since they can bring those perfect solutions to the masses and to the lucky strangers that encounter them in times of need. Woe to them, however, if they misjudge the need or timing (or if the ‘fix’ doesn’t work), since the risk to their reputation can be deadly.

Prerequisites: A Human Design Foundation reading and some basic understanding of your Profile. This class is open to everyone, whether they have a 5th line profile or are simply curious about them for the people in their lives.

This Course / Workshop has its special focus on the Incarnation Cross and the Incarnation Crosses of the Life cycles.

Everyone has a very specific Life purpose that can be mapped out in your Human Design Chart. The calculation of your Personality and Design Suns/Earths represent seventy percent of the imprinted and consistent energy of your being. This is the Incarnation Cross. Your Incarnation Cross is something that will slowly emerge and will get in the full expression of your potential over time. Every time you meet the “Crossing” deepens your understanding why you are and what you can leave your mark on the world.

**Prerequisites:** A Human Design Foundation reading

Semester 3 - Purpose

In this semester we will look at where and how we tend to overwork when trying to draw attention to our gifts, and overlooking the real opportunities to fulfill our purpose. Also how the process of our strategy and authority will naturally point us towards less work and less effort with maximum fulfillment of purpose. Some of the topics we will cover are:

Purpose in daily life; Recognition that brings out our gifts; Projector guidance - what it is and what it is not; Ascendancy of the projector

The Practical Application of Passenger Consciousness

After a Foundation Reading from a Certified Analyst, we have the intellectual tools for following our Type, Strategy, and Inner Authority process as well as understanding how we are easily conditioning or homogenized away from the Truth of who we are. The question is this; what does all of that actually look like in our actual life?

In this 5 week program, we will review the basics of Type, Strategy, and Authority as well as the dynamics of the Not Self while going deeper in the process.

**Prerequisites:** Human Design Foundation Reading

**Recommended:** *The Definitive Book of Human Design*
The Science of Differentiation College

Human Design is the Science of Differentiation and the IHDS College offers complex and inspiring programs.

As empowering as Human Design is for the Personality Passenger, **Primary Health System** is the awakening key for the Design Vehicle, a revolutionary way of addressing the health of the body and brain function. **Rave Psychology** is the study of the underlying motivations of the Personality and leads to the study of the mapping of the mind.

This new school year we open the doors for new students to begin this journey with the Differentiation Degree Certification Program.

Whether you are a professional, newcomer or somewhere in between, the College now offers programs for students of all levels to begin an exploration into PHS and Rave Psychology.

The Faculty

The Faculty of the IHDS is made up of a diverse group of Human Design Professionals from around the world.

With a wide range of skills and backgrounds and a deep knowledge and passion for Human Design, their teaching of Human Design forms the foundation of the International Human Design School.
I was introduced to Human Design on a summer evening in 2009. A friend emailed me a Rave bodygraph asking me if I knew anything about this ‘juju’. I was immediately curious and followed the link to Jovian Archive. As soon as I saw Ra with his baseball cap I was hooked. During the next three hours (and seven years) I listened to and read everything and anything I could find about Human Design. I learned that I am a ‘projector’ that is designed to wait for the invitation. Ironically it felt like my lifelong waiting for something had come to an end. On that night I forgave myself for the first time. I continue to do so every day as part of the endless process of discovery that human design brings. Teaching classes for projectors while being a student myself is a perfect way to keep that spirit alive and to share it.

I have always loved especially when I can practically empower people to learn and develop their own unique skills, their way. Watching people ‘get it’ and grow makes my heart sing, especially when it affects how they live and interact with the people around them. Human Design is a living experiment for me, and I learn from it each day. My courses focus on that experiment and making it ‘real’ in people’s lives…not just more ‘interesting’ information. My Guide trainings are designed to help Guides discern what’s most crucial to share/teach and how to provide it as themselves, from their unique design…avoiding common pitfalls as they go.

I am a 3/5 Splenic Projector on the IC of Service. What I find so gratifying, is that through this teaching I am able to understand my purpose for this lifetime. I am here in service of individualism; here to be a guide for others on the journey of reawakening to each their inherent beauty, and the unfoldment of actualization. My design fills me with an insatiable joy and the fuel to bring transformation at its purest level. I feel a deep sense of gratitude for the profound gift of this knowledge and the understanding it brought me to in making sense of my life. I have been teaching at Human Design America, and in Europe since 2010 – deeply engaged with Human Design since 2005 and was fortunate enough to have participated in many of the classes offered by Ra. This has brought me to a clarity, precision and revelation of the essential presence of Being. I look forward to the possibility of sharing this journey with you.

As a 5/1 Projector on the Cross of Individualism (I’m quirky) with the channel of Talent 16/48, and the channel of Initiation 25/51, I bring a natural ability to get you started on your own path with a unique yet practical approach. Since 2003, I have gone through many years of deep study and practice to watch and understand conditioning and its effects. Oh, boy! What an ongoing trip! I also love continuing to investigate & experience the foundation of how frequencies work, including how other health systems interpret health and disease. I have a very strong dedication to my own experiment, having just completed my second cycle of deconditioning (14 years.) I really do enjoy sharing and empowering others from my right-fixed mind that blurs out some pretty cool things, I’m told, along with humor for some, mutative impact for some, and an unavoidable, wacky intuitive connection with people, if invited.

I was working as a Molecular Geneticist in Vienna when I met Human Design and Ra Uru Hu. Fascinated by the synthesis especially the involvement of Genetics, I started to study the knowledge and ultimately left my scientific career to pursue a career in Human Design. Since 2002 I am a full time HD Professional and Teacher. This is the most fulfilling work that I have ever done in my life. As an IHDS Director and the Director of the PHS Department at the CHD, my teaching focus is scientifically oriented. My approach is to correlate various scientific aspects of the Human Design System to demonstrate the scientific validity at all Levels. In addition to this, I am also dedicated to teaching the Basics of Human Design. It is an amazing process for me to guide others from the fundamentals to the most superior cutting edge aspects of the knowledge.

I have worked with and taught many communication, business and self-development programs, the BG5™ Success Code is by far the most powerful system I have worked with both personally and professionally. I have experienced first-hand how this information can help break down barriers of communication; build confidence; have individuals own and fully utilize their unique gifts and talents; develop leadership potential; help businesses hire the right people with the right skill set; allow people to work in environments that support their creativity; and provide a way to create more productive, happy and healthy work places and teams.

Human Design was introduced to me by a dear friend after a few attempts on her part. Once she finally got my attention and I began looking at how my chart described me, I was deeply intrigued. I purchased a few of the books from Jovian and began looking at the charts of family and friends. What became immediately obvious to me and others was that I had a natural affinity for this system. I seemed to understand aspects of it before even reading about it. I quickly leapt into the entire curriculum and professional training program. I find it deeply satisfying to share this system with others through readings and training programs. I consider it a privilege and honor to empower others to see their lives more clearly and to be their partner in releasing them from the conditioning and programming that isn't who they are. To be included in the IHDS Faculty is a high honor to me.

Teaching is a dynamic – and being a Reflector, I have the ability to accurately reflect what is going on with the group, to know where people are at, and help guide them to where they actually want to be. This is an important distinction: I’m here to guide people, not to where I want them to be – but where they want to be.

I’m here to help you uncover the truth that you are - not to tell you what your truth is, but to create an environment where you discover your truth.

New experiences can lead to observation and observation can lead to awareness. It is out of our awareness that we naturally transform – not through great effort or making ourselves change, but simply by the process of observation.

Creating classroom opportunities that provide students with an experiential journey – a process of self-discovery, is what I find rewarding, and ultimately, transforming for both the student and for myself as a teacher.

I’m a true Mad Hatter. I have juggled many hats and roles in my life. Some have fit me wonderfully while others drove me crazy. Fast forward to today and, through Human Design, I am emerging as a Role Model who realizes the only way to juggle life is by staying centered on who you are. Through awareness and your own inner authority I believe you will also allow your many aspects or hats in life to align in perfect harmony. Then, perhaps you will discover, as I am, how to leverage the laws of your own unique nature. Are you ready to use centrifugal force rather than brute strength (which leads to resistance) in your life and let things flow more naturally? In the end what truly matter is whether or not you learn to live your design. All my efforts as a teacher, guide, analyst, and consultant begin there.
