Rave Cosmology Biversity

Rave Cosmology is the esoteric and mystical side of Human Design.

For the first 18 years after the birth of Human Design, Ra Uru Hu focused on what was logical and empirical about Human Design. He often said: "Don't believe me and do not trust me. Try it for yourself; test it for yourself. This is mechanical knowledge that can be tested by each and everyone of us".

Ra said, "Nothing has concerned me more than the legitimacy of this knowledge. It is why it is so important for me to explore the depths of design and personality to get to the very core and foundation of the knowledge. This is a true science, and it is a miracle science."

Come join us in the Rave Cosmology Biversity and learn about how the Human Design knowledge ties together with the creation of our Biverse and the mechanics behind existence.

Try it for yourself; test it for yourself. This is mechanical knowledge that can be tested by each and everyone of us".

Once Human Design was established as a practical yet transformational tool, Ra Uru Hu felt a responsibility to bring forward the mystical side of Human Design by sharing his experience directly with us. He empowered us to carry this information forward to share it with the rest of the world generation by generation. Teaching the Rave Cosmology of Human Design is the opportunity to bring balance to this knowledge and to show how vast and profound the source of this knowledge really is. General, Experiential and Continuing Education

Staffed by an eclectic and talented group of IHDS professionals, we offer a cross section of workshops, lectures and courses adding a new and exciting dimension to the IHDS. Whereas the IHDS Training Academy and the Science of Differentiation College focus on extended and detailed certification programs, the General Education opens the door to Human Design by creating an experiential dimension to the IHDS, and also a place to possibly ‘catch up and catch on,’ or simply pursue a specific interest.

Ra often mentioned how in awe he was of the structure of the Mandala and what it was illustrating. The relationships found within the Mandala and how they can be applied to the human experience are fascinating and approach something mystical.

In this 10 week Course, we will take a simplistic yet empowering journey into the story of the Mandala. We will follow Ra's structure of breaking it down to 16 segments or "Faces" and explore the story of each of these Faces and how, linked together, we can derive a Cyclical Storyline for the Universal Process and how we fit into it.
