Chat Prompt

In one to three words, share what you believe leaders can do to cultivate a workplace of civility.
Civility is not situational. What a leader must manifest all day, every day, is civility, because civility is—or at least should be an imperative and expectation for all of us...

Authentic Leadership

A leadership style exhibited by individuals who have high standards of integrity, take responsibility for their actions, and make decisions based on principle rather than short-term success.

Source: Gavin (2019)
Resonant leaders are aware that their actions have the ability to impact others and use emotional intelligence to guide and help others.

Select the style of leadership that resonates with you the most:

A. Authentic Leadership
B. Resonate Leadership
C. Servant Leadership
D. Transformational Leadership
E. All of the Above
Well-run prisons are not brought into being by good philosophy, good laws, or good lawsuits, although, to be sure, these are very important. Without intelligent, competent and even inspiring prison leadership, there is little chance of creating decent, much less constructive prison environments and operations.

Civility as a Core Competency

The Inherent Value of Civility in Corrections
What are competencies?

Competencies are the knowledge, skills, abilities, and behaviors that contribute to individual and organizational performance.

- Knowledge is information developed or learned through experience, study or investigation.
- Skill is the result of repeatedly applying knowledge or ability.
- Ability is an innate potential to perform mental and physical actions or tasks.
- Behavior is the observable reaction of an individual to a certain situation.
Among Correctional Employees

“Civility is a core competency for the challenges in corrections today, from operations to staff development to meeting strategic aims. Civility improves respectful, professional interactions and contributes to more reasoned decision-making capabilities, for the line staff and supervisory levels. Promoting a more civil workplace is essential in corrections for increased strategic effectiveness and operational responsiveness.”

Among the Justice Involved Population

“Another benefit we have seen is enhanced civility in the population and between staff and inmates. Let me be clear: This is not about being more “familiar”; it is about striving to be more effective. Today, inmates seek out staff members; inmates want the approval of staff members, and they value their opinions. It is also rewarding for staff to be recognized as role models.”

Civility Increases Employee Wellness and Longevity

Focusing on Employees and Stakeholders
Creating a respectful workplace is an important part of creating a healthy organization. Workplace wellbeing initiatives need to include thorough education, training and skill building programming and interventions that address the topic of civil social encounters. Civility enhances employee wellbeing.
