

We know you love your pet and we appreciate the time and devotion involved with being a pet owner. That's why we now offer the **Pet Wellness Report**[®]. Offered during your pet's regular exam, the **Pet Wellness Report**[®] provides a more complete picture of your pet's health. Call us today at 814-238-5100 to schedule your pet's exam.

The results of detailed Laboratory work and a comprehensive Pet Health Questionnaire are combined to form an individualized **Pet Wellness Report**[®]. This can help you better understand your pet's health and enable you to work with your veterinarian to provide the best possible care.

Laboratory Work

Laboratory work provides your veterinarian information to help evaluate your pet's organ function, identify the nutrition your pet needs to stay well, better understand your pet's health risks, and detect some common diseases in time to make a difference.

A physical exam alone may not be able to provide this kind of information (e.g. Lyme disease).

The Pet Health Questionnaire

The questionnaire takes advantage of your close relationship with your pet to help predict or identify potential issues early. The questionnaire asks questions that provide background on your pet in the following areas:

- Arthritis
- Oral and dental health
- Kidney and other organ health
- Risk from diseases, some of which may be preventable by vaccination
- Cancer
- Nutrition
- General safety
- Weight management
- Heartworm and heart health

The questionnaire also calculates your pet's approximate age in 'human' years. It gives you a unique chance to share detailed information about your pet with your veterinarian that you may not have the opportunity (or always remember) to discuss during a regular exam.

Overall Health

Cancer

Dental

Nutrition

Safety

Laboratory

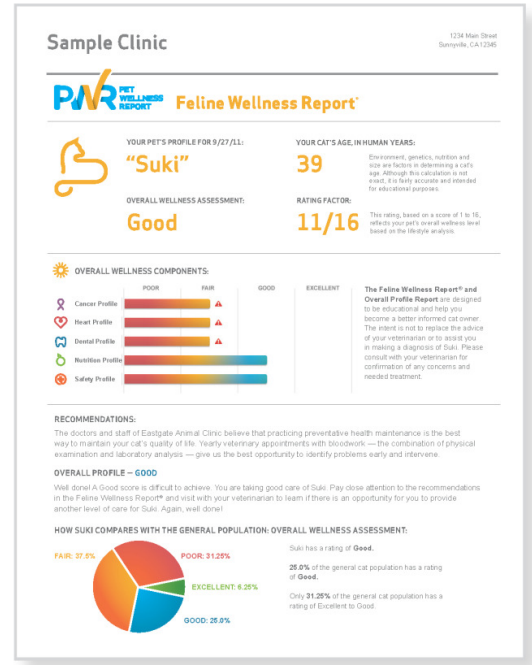

Your pet's individualized report includes the results of the online health and lifestyle questionnaire and also your pet's laboratory values – all in easy-to-understand language.

It provides:

- Health information and recommendations tailored to your pet's needs
- An evaluation of your pet's risk level for certain serious medical conditions
- The opportunity for you and your veterinarian to discuss the best options for your pet so you can take action

Call us today at 814-238-5100 to make an appointment for your pet to receive the **Pet Wellness Report®**, or if you have any questions.

Once your report is complete, you can access your pet's report online at any time!

"It gives you peace of mind. . . knowing you have done everything you can so you don't lose them even a day early." Pet Parent
