\_\_\_\_ Vaccinations: \_\_\_\_\_  
*Booster vaccine due:* \_\_\_\_\_

\_\_\_\_ Pre-surgical exam: \_\_\_\_ normal  
Abnormal: \_\_\_\_\_  
\_\_\_\_\_

### At Home Care:

- **Keep confined indoors or in an enclosed area for 5 days.**
- **Call if your cat licks the incision, seems painful, or if there is any discharge from the incision site.**

### Sutures:

There are no sutures placed during cat neuters – the incisions are left open.
