Thank you for inquiring about our boarding services. We give extra special attention to all pets in our care, even if it means hand-feeding baby food to pets that aren't eating like they should. We also maintain the highest standard of cleanliness and safety in our kennels. Our deluxe accommodations include kennels with heated floors in the winter, air conditioning in the summer and two daily walks with each night's. Dogs that do not chew are provided a blanket to rest comfortably on. We feed a sensitive stomach adult diet to all dogs, unless you prefer to bring your dog's regular diet.

Your pet' vaccinations must be current as well as administered by a licensed Veterinarian. Your pet must also be free of internal parasites (such as worms) and external parasites (such as fleas and ticks). If not, your pet will be treated accordingly, for safety and hygienic reasons. Please ask for a list of fees for these services.

If your pet is afraid of storms, with your consent the doctor can administer a sedative. In case of emergency, with your consent, the doctor will administer treatment and/or medications. It is important that you leave a phone number where you can be contacted or the name and phone number of a person who can make emergency decisions regarding your pet should an emergency arise. **Please be advised that your pet will not be released to the custody of anyone not listed on your account without your prior consent.** Please state on your consent form whom will be authorized to pick your animal up from our facility.
