

PROFESSIONAL SCRUM TRAINING OVERVIEW

Interactive, activity-based training in [Professional Scrum](#) and complementary practices for a variety of learning levels, roles and needs.

If you are looking for a learning experience that goes beyond a trainer simply presenting to the class, you have come to the right place! Whether you're just getting started with Scrum, need a refresher, are looking for specific training on becoming a Scrum Master or Product Owner or are interested in more advanced topics, there are a variety of Scrum.org training courses for you to explore.

Whether you prefer to learn in person, virtually, or in a private setting with others from your organization, there are multiple options for attending Scrum.org training classes. Explore these options and [learn](#) the differences.

Applying Professional Scrum™

Get an introduction to Professional Scrum and learn how the Scrum framework and an agile mindset enables teams to deliver more value, satisfy stakeholders and work better together. Experience Professional Scrum while working in Scrum Teams over a series of Sprints:
learn Scrum while using Scrum.

Applying Professional Scrum™ for Software Development

Learn how to deliver quality software using the Scrum framework while working in Scrum Teams over a series of Sprints by practicing Professional Scrum. Collaborate throughout the class to deliver a realistic software system while applying modern Agile and DevOps practices.

Professional Scrum Master™

Gain a strong understanding of Professional Scrum, an agile mindset and the role of the Scrum Master. Dive into the accountabilities of the Scrum Master and underlying principles of Scrum while gaining the ability to choose and apply techniques and practices used by successful Scrum Masters.

Professional Scrum Master™- Advanced

Get a deeper understanding of the accountabilities of the Scrum Master, exploring the challenges that Scrum Masters face, how to handle them by applying the principles and values of Scrum to help support the Scrum Team, and dive deep into how Scrum Masters serve the Scrum Team, Product Owner and the organization.

Professional Scrum Product Owner™

Explore and learn to apply the accountabilities of the Product Owner and the principles of Professional Scrum. Gain an understanding of the pivotal role the Product Owner plays in bridging strategy and agile product management in order to help the Scrum Team create valuable products.

Professional Scrum Product Owner™ - Advanced

Dive deeper into the accountabilities of the Product Owner and agile product management focused on helping experienced Product Owners expand their ability to establish a vision, validate their hypotheses and ultimately deliver more value.

Professional Agile Leadership Essentials™

In this course designed for managers and leaders of agile teams, gain a practical understanding of how to best support, guide and coach your team(s) to create conditions for greater agility. Understand the role that leaders play and be prepared to take action.

Professional Agile Leadership™ - Evidenced Based Management™

Experience how to guide teams toward continuously improving customer outcomes, organizational capabilities and business results. Learn how to apply the EBM framework to set clear goals and measures.

Scaled Professional Scrum™

Develop a collection of skills that can be applied to overcome challenges when scaling Scrum beyond a single Scrum Team, while learning about and using the Nexus framework. Work together with other students to organize and simulate a scaled product development project.

Professional Scrum™ with Kanban

In this course designed for experienced Scrum practitioners, learn how to improve the way you are working by applying Kanban practices in the context of Professional Scrum. You will learn the importance of flow and be equipped with practical knowledge to implement Kanban practices to help Scrum Teams enhance how they work.

Professional Scrum Facilitation Skills™

Develop proficiency in facilitation skills, so that you can help your Scrum Team better solve problems, create a shared understanding and foster transparency. Learn how to become a better facilitator to improve Scrum Team, stakeholder and customer interactions.

Professional Scrum Product Backlog Management Skills™

Students learn techniques and methods to effectively manage a Product Backlog that clearly expresses the future vision of the product and brings transparency to what is most valuable for the Scrum Team to work on to delight stakeholders and customers.

Professional Scrum™ with User Experience

Experience how Scrum and User Experience (UX) align and integrate to create cross-functional teams that connect more closely with end users and customers, ultimately delivering more value and improving outcomes through combining design and delivery.

Professional Scrum Master™ and Product Owner

This course designed for private delivery to companies combines key learning objectives from both the Professional Scrum Master™ and Professional Scrum Product Owner™ courses. This enables side-by-side learning for Scrum Masters and Product Owners.

Certifications and Assessments

Each class includes a free attempt at the corresponding level certification assessment.

In your Professional Scrum class, you will learn the importance of inspection, adaptation, and fast feedback cycles. To reinforce those concepts, if you take a Scrum.org class and attempt the certification assessment within 14 days and do not score at least 85%, you will be granted a second attempt at no additional cost.
