Is your goal to have an unplugged wedding ceremony?

Please choose one ...

An "unplugged" wedding ceremony is when you ask guests to be fully present in your wedding by putting away their mobile phones and cameras. Ideally, the officiant would make this announcement before the ceremony is about to begin, ushers would notify guests as they are seated and preferably add it to your program, if you have one. Your professional photos will be much more beautiful without your guests holding cameras and they will be fully present to particular in your day.

Are you planning to write your own vows to one another?

Please choose one ...

What type of religion or tradition will be incorporated into your wedding ceremony?

Catholic, Jewish, Non-Denominational, etc.

Does your ceremony venue have any photography restrictions?

i.e. no flash photography or restricted access for the photographers

Please indicate anything unique you are incorporating into your wedding ceremony:

Will you be doing a receiving line with your guests immediately after the ceremony?

Reception Tip: *If your venue offers the option, it's recommended to ask them to serve the vendors more towards the middle of dinner service, instead of at the very end. This way, we're ready to come back to the party when the guests are and don't miss any great moments on the dance floor.*

Family Portraits

Family formals are typically taken immediately following the ceremony, although some exceptions may work depending on your wedding day timeline. It is recommended that formal shots are taken of the couple's immediate families and grandparents. Please take into consideration that it will take approximately 1-2 minutes per shot depending on group size and cooperation of family members.

Below you will find some common family formal combinations. We will review these more in depth during our final pre-wedding meeting and create a list of the different

groupings you would like to capture.

- Biological Parents (Together and Separate)
- Biological/Step-Parent Combinations
- Immediate Family (Parents and Siblings)
- Immediate Family Plus In-Laws, Nieces and Nephews
- Siblings Only
- Grandparents

Below, please fill in the first names and their relationship for any that apply to your family dynamic. This will help me build out your family formal groupings with names so I can address everyone properly.

Example: Mom Mary, Dad John, Brothers Bill and Bob, Sister Jane

Jane's immediate family (mother, father, siblings, in-laws, nieces, nephews):

Wedding Gallery Pre-Registration

I offer an option where you can allow your wedding guests to enter their email address into a small iPad (placed on the bar at your reception) to sign up to get a link to your wedding gallery. If they sign up, they'd get the email 1 week after you have first received your images, which gives you plenty of time to look them over and hide any images you wish to be hidden from those you share your gallery with. It's a great, easy way to share your photos with friends and family.

Would you like me to set your gallery up for this Pre-Registration option?
