Who We Are

FAST Platform is a single-invoice technology solution delivering superior service, quality, and speed. We simplify workflows by connecting multiple suppliers for deep inventory and broad product selection, all managed under one streamlined process.

Established in 2004 and based in Columbus, Ohio, FAST Platform has decades of expertise in B2B and eCommerce sales, automated order management, and apparel decoration.

2+ Million Orders Processed

95%+ of orders processed without human touch

One Platform, Total Fulfillment

Single Invoice Solutions

Consolidate product, decoration, and freight into one invoice and one tracking number, reducing admin time and accounting complexity.

Automated Order Routing

Hands-free ordering sends product and decoration to the nearest qualified decorator with the right equipment and capacity.

Massive Product Catalog

Access 500,000+ items from integrated suppliers. FAST manages back-orders automatically—orders ship as soon as inventory is available, no extra work needed.

Issue-Free Fulfillment

Supplier mis-ships and decorator damages are handled by FAST, so you don't have to worry about disruptions.

An Integration For Everything

FAST Platform connects every part of the decorated apparel supply chain in one place. With direct integrations to suppliers for blank goods, a network of decorators (CDN) for production, leading shipping carriers for reliable delivery, and partner webstores and ERPs for seamless order flow, you get a single, connected system that keeps everything moving without extra work.

Operational Efficiencies

Reduce administrative costs with streamlined processes and smarter inventory management. FAST automates order tracking and error handling to minimize manual work and overhead.

For larger programs, we facilitate bulk ordering to capture volume discounts while routing to the nearest qualified decorator for faster, lower-cost fulfillment.

Orders

2025 Network Stats

442,946 orders received

1704 average orders shipped per day

90.5% orders shipped in 5 days or less
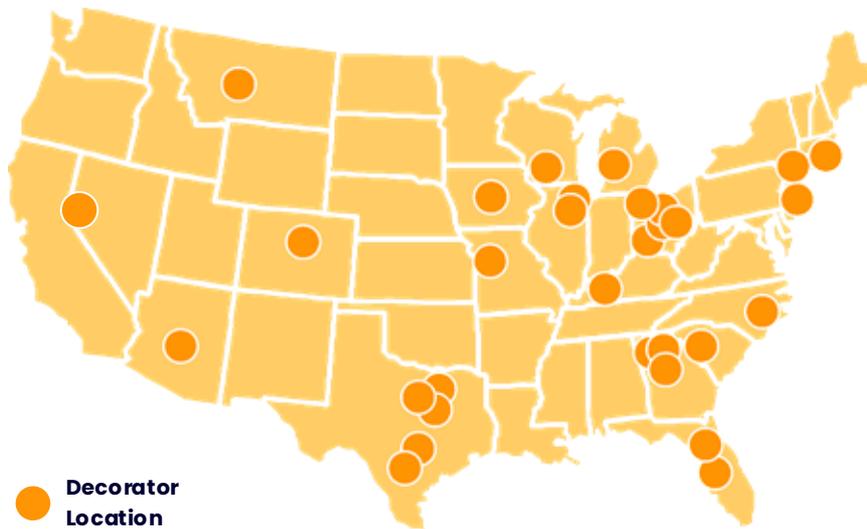

Production

3.2 average days in production

0.69% error rate

8.1+ billion stitches produced

<5 Day Production Turnarounds

FAST delivers unmatched speed with an average production under 5 days and the scale to handle any order size. Our platform runs on automation, offers real-time transparency, and gives you the flexibility to manage everything from one-offs to large program orders with ease.
