Revised 2/18/23 Gregorian 11/28/6009 Greater-lesser light calendar

Yod or Yud is the 10<sup>th</sup> letter of the aleph-tav, the smallest of letters and is suspended in the air but not above lamed, the 12 light letter.

Yud is the repeat day of the 3<sup>rd</sup> day of creation if counting a weekly cycle according to present day calendars. Yom Shlishi – Light letters on this day are Gimel and Pay. Meaning given to the writer- **The journey of a person begins each day with the words they use all day.**

The design of the Yud is a point: the beginning and ending of all things, a dot which represents our Creator's essential power, the One who is echad, pronounced ekh-awd, meaning to unify, collects one's thoughts, united, alike, alone, one, and altogether, Light letters Aleph, Chet, Dalet. The understanding given to the writer: **The Creator's breath (words of wisdom) protects with the law of love all those that are awakened to love, life and light, perfect existence**. Furthermore, the Yod looks like a flame that soars ever higher, representing a person yearning to unite with pure truth. At-one-ment or unity. At-one-ment or blessed spelled with light letters Kaphar, pronounced kaw-far, meaning -a prime root to cover, to expiate or condone, cleansed, disannul, forgive, be merciful, pacify, pardon, reconcile.

Light letters for at-one-ment are Kaph, Pay, and Resh. The understanding given to the writer: **The blessed speak with wisdom!**

Today, because the people will not seek for the truth- they have been given the Gregorian calendar in place of the luni-solar calendar so that they can worship on the world's day and be "one" with the world like in the time of Babel. However, this "one" is made by man and not our Creator. Gen. 11:1-9 pg.10. Today those that remain in darkness celebrate pagan holidays instead of resting according to creation and celebrating each prophetic day of creation. They eat from the tree of knowledge of good and evil and not from the tree of life.

Additionally, the Yod represents the method by which the blessing descends from our Creator to all people. The Yod represents a seminal drop, the concentrated power of the power of love. The Vav (6th light letter, connector) represents a descent, for its form is that of a chute-and through this the blessings of our Creator travels downward to our world through the understanding of love and the words of truth. The Dalet (4<sup>th</sup> light letter) having height and width, represents the physical world, signifying how our Creator's blessings are manifest in every new day. This teaches us that our Creator's blessings come from the love formed within. They flow down to this world and endow us with physical health and strength, sustenance and success when we follow the words of truth. Remember, the words of truth and nature will only magnify and confirm love, life and light, the teachings of wisdom.

Maybe this is why the first letter of each of the 3 passages of the bible's priestly blessing begins with the Yod.

May our Creator bless you and guard you.

May our Creator shine upon you and be gracious to you.

May our Creator love you and grant you peace and truth.

Because our Creator's original and fundamental intention in bringing us into the world was not to eschew physicality, but to transform the physical humankind into the eternal humankind, even if this is only talking to you and no one else around you at this particular time!! Transforming into the eternal being, born

from within our Creator's love, is the ultimate purpose of all humankind.

How can we apply this to our lives? When asked to do something we say, "No, I do not want to do that" - However it is for your eternal growth of all and not just the individual. Think about where our Creator has you and stay there as long as required. When the door opens you will know that it is the correct time to move. He will make sure you know and confirm it by opening another new and beautiful door.

Anointing using the aleph-tav is spelled mishchah, pronounced meesh-khaw, and meaning- a consecratory gift, prime root to rub with oil to consecrate also to paint. Light letters Mem, Shin, Chet, and Hey. The understanding given to the writer: **The words of love are the words of wisdom to those that received the revelation of light which brings forth eternal life.** Believe and have Faith. Do not force a door to open and do not go before the door is opened.

Now imagine this scenario. A mother wakes up her 8 y/o son for school and he says, "No! I do not want to go to school." How does the mother respond? "What homework did you not finish? Do you have a spelling test that you need to study for? How can I help you get ready for school today?" she will incline her ear for truth to discern if it is due to rebellion or lack of study to feel confident and successful for that day.

Now if only we would all be strong and courageous –committed to learning the truth so error can be removed and strive to be

awakened and connected to our Creator every minute of the day!

Numerical value: 10

Sound – “Y” -yes

Meaning: Right hand.

Deals with completeness, a cycle has completed and the outcome is 10.

Yod is the most found letter as Tet, letter 9, is the least.

Yod is the “atom” of the form from which all the other letters begin and end.

Yod represents a mere dot, a divine point of energy. Since Yod is used to form all the other letters and building blocks of creation Yod indicates our Creator’s omnipresence.

The power and doorway of creation.

The life and light of the word of love in everything.

Yod, the greatest has the most and **humility** go together as it is the smallest of letters and most humble but the most powerful.

- 10 is a number marking shelemut-Using the aleph-tav the word for peace, shalom (שלום) is derived from a root denoting wholeness or completeness, and its frame of reference throughout Jewish literature is bound up with the

notion of shelemut, perfection. Complete and mature or completion and order.

In the concordance the word for complete is tamiym, taw-meem meaning entire, integrity, truth, without blemish, full, perfect, sincerely, sound, without spot, undefiled, upright, whole. Light letters are Tav, Mem, Yod, and Mem. The understanding given to the writer: **Eternity, our Creator's esteem, is the ATor ET(aleph-bet). Our Creator is who begins all words, that means created everything with a beginning and an end meaning eternity.**

The basic 10 number system is universal. Just as Yod is part of all the previous letters of the alphabet (as a component) so Yod is part of all the numbers. We have 10 toes and fingers because Yod means 10 and not the other way around.

10 represents sanctify and holiness

Yod shows that the truth is life and one, and that from truth derive all other things by the power of wisdom.

The dot, the Yod, represents a student in instruction. When one student is beside another, when one student respects the other, then peace dwells in their presence. Their alliance and agreement becomes the awakened child. But when one student is on top of the other, when one student thinks he's better or smarter than the next, or disrespects his neighbor/teacher, then that's the end of the connection. It creates a separation in the relation between the student and peace and love.

While we live in a physical world of “natural” order, our Creator is truly the one and only Creator of nature.

Therefore, the mission of a born from within person is to go forth into the depths of the materialistic world and infuse it with the Yod of love and perfect truth. This refers to every place a ‘born from within’ foot lands. We must journey from day to day with words of love into business with the same intention, with the same passion to fulfill light’s creation.

Anyone who denies idolatry and thereby acknowledges love, life and light, has the gift of kindness. Remember, we live forever and when we leave this earthy dwelling we leave behind our pure acts of love!

It is interesting to note that the letter Yod, when placed at the beginning of a word (ET or AT), represents **constancy**.

The same concept holds true with our Creator. The word hoveh means the present. Our Creator continuously creates the world – right now, even as you read this. The Yod in front of hoveh reminds us that creation was not a singular occurrence. Rather, the laws of creation are forming the world anew every moment.

A loving person, by nature, is thankful for our Creator. Thankfulness is expressed every moment of our earthly existence. This is heard by the words we speak and why the words we speak are so strong and full of power. Of course, some days our thankfulness can be concealed in quietness but

that can never obscure a loving person's perpetual, unyielding connection to our Creator in their thoughts.

This can be likened to today with the COVID virus –wearing of the mask over our nose and mouth. This is the darkness trying to force people to silence their words of love. Our Creator is in control and in time will show us the higher reasoning for this plague. Outside of the earthquakes and hurricanes the birthing process is in its enlargement stage and era. Continue with love and you will continue birthing “born from within”, children of light, to a fulfillment.

### **Garbage Can and the Word Purpose-** children story

Today is the day that the garbage is pick-up. Garbage Can, known better as Alicia, patiently waits for this day each week.

You see, this is the day that Alicia is scheduled to have her garbage removed by, Alan, the garbage truck. Once the heavy load is lifted out from her, she instantly feels relieved and enjoys feeling as light as a feather.

This particular day she was sitting with her lid tightly secured and her side seams almost bursting. She listened for Alan. She could tell he was on his way by the sound he would make; "Engine-gen-gen-gen, Clank-a-ta-clank, Bang-Bang!"

"Oh!" Alicia exclaimed, "How happy I am to see you today. I cannot budge because I am so full!"

"I understand," answered Alan, "I will pick you up and empty your garbage into the back dumpster."

After Alan set her down he exclaimed, "My, my little one, you are really heavy today! What have you been eating?"

Alicia answered, "Everything one can imagine. Mother did her spring cleaning and emptied all the rooms inside of me. Besides that, she had a birthday party for Gracie, and I had to eat all that mess-up, too."

Alan replied, "What a huge job you have been given by this family. Well, it is spring! The birds are singing with joy! The cool breeze whistles around my wheels while the children run and play. I hope your day has plenty of sunshine!"

"See you next week," said Alan as he, "Engine-gen-gen-gen, Clank-a-ta-clank, Bang-Bang" down the broken paved street.

Alicia quickly raced to the back door and banged her lid to get mother's attention.

After banging her lid for what seemed to be ten minutes, she knew that mother was not home.

Oh, how disappointed Alicia felt. "The only day I have to move about easily and mother is not home," she thought.

As she walked away from the back door she dragged her wheels and hung her lid in disappointment. Now she was faced with waiting!

She spoke out loud, "no one could possibly understand me. I am only a garbage can and what does that mean to anyone?"

She opened the yard gate door and sat on the grass by the edge of the street. She hoped that she might see something interesting. As Alicia sat there and looked around she noticed that everything she saw was waiting for something or someone. The cars were waiting for the red light to turn green so they could continue going down the street.

The grass, trees, and flowers were waiting for it to rain so they could grow more beautiful. A boy was waiting for his dog to reach him so they could continue walking down the sidewalk.

The children in the school across the street waited for class to end so they could go outside and play. Oh! What exciting noises came from that school when the school bell did ring!

Alicia then thought, “Here I am just waiting for time to pass. Does anybody see me waiting?”

As she looked around her environment she knew her answer; “No one sees me waiting. Everyone is too busy doing what they want to do. People just can’t be bothered with me.”

“I want someone to see me! I want to be important!” screamed Alicia.

After these words left her lips, in the distance, a truck door slammed shut. Immediately she came to her senses. She was feeling sorry for herself again, and thought, “was that daddy? He would notice me!”

Out came daddy into the yard with a pile of garbage. He and the family had been to the farm and what a load of clippings he had collected.

As Alicia opened her lid to allow daddy to throw his trash into her, she realized the fantastic feeling of having a perfect purpose in life.

“It felt so good to have garbage inside of her,” she thought. She wanted to wrap her round little body around daddy and kiss him. However, she knew better. Garbage cans can’t do that.

Alicia was content to know that she knew her purpose in life.

Do you know your purpose in life?
