

HOWELL STREET TRANSIT IMPROVEMENTS

Eastbound Howell Street (between 9th Avenue and Yale Avenue)

The Seattle Department of Transportation is working with King County Metro, Community Transit, and Sound Transit to address the delay buses are currently experiencing on Howell Street between 9th Avenue and Yale Avenue. Currently, travel times for buses are long through this section of downtown Seattle.

To improve the reliability and bus travel times, we're planning to make the following changes in spring 2019:

- Relocate the existing transit-only lane on Howell Street to the left curb lane
- Install an eastbound transit queue jump on Howell Street and Yale Avenue that will allow buses traveling through Boren Avenue a head start when the light turns green
- Restrict parking on the left curb lane on Howell Street between 9th Avenue and Yale Avenue between 3 and 7 pm; Monday through Friday
