

# Convene®

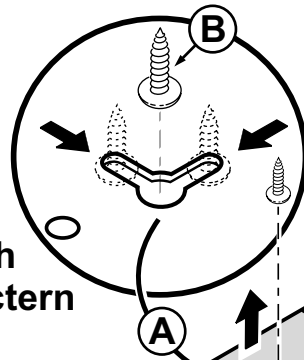

## Lectern Task Light Installation

1. Two 1/2" screws are used for attaching task light, located on the bottom of lectern ledge.

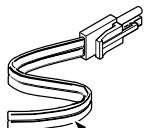

**NOTE:**

Allow enough screw clearance for task light housing to fit snug when locked in position.

2. Align holes (A) in task light with screws (B) in lectern ledge.

3. To secure, move task light in the direction of slots in task light housing. Adjust screw depth if needed.
