New Acute Care Service Introduced at FVSA *Christopher Smith, MD, Joins Team & Will Lead Effort*

Fox Valley Surgical Associates (FVSA) is announcing a new [Acute Care service line](#) to help expedite the treatment of urgent and emergent patients with Christopher Smith, MD, leading the effort.

[Dr. Christopher Smith](#) comes to FVSA from the Milwaukee area where he practiced for 20 years. He held the role of Chief of Surgery at West Allis Memorial Hospital and was named one of the “Top Doctors in Colorectal Surgery” for four years by Milwaukee Magazine and M Magazine.

With the Acute Care service addition, Dr. Smith will be available for same-day consultations and urgent procedures as available.

Continued on next page.

Acute Care services include:

- General Surgery
- Endoscopy
- Laparoscopy
- Port Placement
- Inpatient and Outpatient Consultations

The hospital administration has also set aside added resources to allow timely care of these urgent patients.

The purpose of the Acute Care service is:

- For patients – To have those with urgent and emergent needs seen in a timely fashion for consultation or surgery
- For referring clinics – If patients are at your clinic and you'd like them to see a surgeon the same day, Dr. Smith will be available to consult and recommend a treatment plan

Even if it is determined that the condition is not truly urgent, but the patient's anxiety level can be improved with a visit, our commitment is to see him or her.

For more information on [FVSA's Acute Care services](#), please call 920.731.8131.
