

News Release

FOR IMMEDIATE RELEASE

Conditions continue to favour buyers in the Greater Vancouver housing market

VANCOUVER, B.C. – October 2, 2012 – The summer of 2012 drew to a close in September with home sale activity well below historical averages in the Greater Vancouver housing market.

The Real Estate Board of Greater Vancouver (REBGV) reports that residential property sales of detached, attached and apartment properties reached 1,516 in September, a 32.5 per cent decline compared to the 2,246 sales in September 2011 and an 8.1 per cent decline compared to the 1,649 sales in August 2012.

September sales were 41.6 per cent below the 10-year September sales average of 2,597.

“There’s been a clear reduction in buyer demand in the three months since the federal government eliminated the availability of a 30-year amortization on government-insured mortgages,” Eugen Klein, REBGV president said. “This makes homes less affordable for the people of the region.”

New listings for detached, attached and apartment properties in Greater Vancouver totalled 5,321 in September. This represents a 6.3 per cent decline compared to September 2011 when 5,680 properties were listed for sale on the MLS® and a 31.6 per cent increase compared to the 4,044 new listings in August 2012.

At 18,350, the total number of residential property listings on the MLS® increased 14.1 per cent from this time last year and increased 4.5 per cent compared to August 2012.

“Today, our sales-to-active-listings ratio sits at 8 per cent, which puts us in a buyer’s market. This ratio has been declining in our market since March when it was 19 per cent,” Klein said.

The MLS HPI® composite benchmark price for all residential properties in Greater Vancouver is \$606,100. This represents a decline of 0.8 per cent compared to this time last year and a decline of 2.3 per cent over last three months.

“Prices in the region remain relatively stable overall, although we do see some reductions in the areas that have had some of the largest price increases over the last year or two,” Klein said.

Sales of detached properties on the MLS® in September 2012 reached 594, a decrease of 37.9 per cent from the 957 detached sales recorded in September 2011, and a 31.4 per cent decrease from the 866 units sold in September 2010. The benchmark price for detached properties decreased 0.5 per cent from September 2011 to \$935,600.

Sales of apartment properties reached 676 in September 2012, a 26.7 per cent decrease compared to the 922 sales in September 2011, and a decrease of 30.4 per cent compared to the 971 sales in September 2010. The benchmark price of an apartment property decreased 0.7 per cent from September 2011 to \$368,600.

Attached property sales in September 2012 totalled 246, a 33 per cent decrease compared to the 367 sales in September 2011, and a 35.8 per cent decrease from the 383 attached properties sold in September 2010. The benchmark price of an attached unit decreased 2.7 per cent between September 2011 and 2012 to \$458,600.

-30-

The real estate industry is a key economic driver in British Columbia. In 2011, 32,390 homes changed ownership in the Board’s area, generating \$1.36 billion in spin-off activity and 9,069 jobs. The total dollar value of residential sales transacted through the MLS® system in Greater Vancouver totalled \$25 billion in 2011. The Real Estate Board of Greater Vancouver is an association representing 11,000 REALTORS® and their companies. The Board provides a variety of member services, including the Multiple Listing Service®. For more information on real estate, statistics, and buying or selling a home, contact a local REALTOR® or visit www.rebgv.org.

HOW TO READ THE TABLE:

- Benchmark Price: Estimated sale price of a benchmark property. Benchmarks represent a typical property within each market.
- Price Index: Index numbers estimate the percentage change in price on typical and constant quality properties over time. All figures are based on past sales.
- x Month/Year Change %: Percentage change of index over a period of x month(s)/year(s)
In January 2005, the indexes are set to 100.
Townhome properties are similar to Attached properties, a category that was used in the previous MLSLink HPI, but do not include duplexes.
The above info is deemed reliable, but is not guaranteed. All dollar amounts in CDN.
