GOLDBANK STAKES BISMARK GOLD CLAIMS IN WHITE GOLD AREA, YUKON

Vancouver, BC, April 13, 2011: Goldbank Mining Corporation (**TSX.V-GLB**) is pleased to announce that it has staked the Bismark Gold Property comprising 162 quartz mineral claims in the White Gold and Klondike areas in the Yukon.

The Bismark Property is located south of Haystack Mountain and east of Bismark Creek approximately 45km south of Dawson City, Yukon.

Identification of the Bismark Property was made following a similar geological model developed while exploring at Goldbank's Leota Gold Property in the Klondike where Goldbank has already identified several drill targets.

Goldbank is a Canadian exploration company actively exploring for gold at the Leota Gold Property in the Klondike Gold Fields near Dawson City, Yukon and for platinum, palladium, and nickel at the Buck Lake Property in north-western Ontario.

This news release has been reviewed and approved for technical content by Dr. Bohumil (Boris) Molak PGeo (BC), a consulting geologist and qualified person.
