

Codeproof MSP Dashboard

Codeproof has launched a new [MSP portal](#), specifically designed to offer our resellers an improved experience and enhanced control over their customer accounts.

Key features include:

1. **Consolidated Account Management:** Seamlessly manage all your accounts from a unified dashboard using a single login, offering a truly multitenant architecture.
2. **Payment and License Tracking:** Monitor your payments and check the availability of licenses with ease.
3. **Role-Based Access Control:** We've implemented multi-tier administrative system for superior account management:
 - **Super Admin:** The "Super Admin" role, giving you complete access and control over all functionalities.
 - **Admin:** The "Admin" role is for managing one or more accounts based on customer assignment.
 - **Billing:** The "Billing" role is designed to exclusively manage and monitor financial aspects of the accounts.
 - **Staging:** The new "Staging" role focuses on device enrollment, facilitating smooth onboarding of devices to the system.
