

TRANSFORM YOUR SCHOOL OF EDUCATION *with* FACULTY ACTIVITY REPORTING SOFTWARE

Leading universities use Activity Insight to showcase faculty accomplishments. Activity Insight empowers schools of education to capture important faculty teaching, research and service activities in one place and share the right stories of impact and engagement with a range of stakeholders.

Activity Insight will help you centralize faculty activities and promote the success of your School of Education. Leverage your solution to:

- Showcase teaching activities with an online portfolio
- Capture your research in higher education, learning and more
- Tell the story of how your faculty engage with local schools and the community

CASE STUDY: REPORTING WITH PITTSBURG STATE UNIVERSITY OF EDUCATION

CAEP VISIT:2017

“We used Activity Insight for our CAEP reporting and it saved us considerable time.”

“One click of a button and you have something generated that could take hours to put together manually.”

Jan Smith,
Assistant Vice President for
Institutional Effectiveness

PITT STATE'S TIPS FOR EASIER CAEP REPORTING

1. Include the right breadth of faculty in your reports. You likely have teacher education faculty in colleges other than the School of Education.
2. Teach faculty how to correctly enter instruction information you need, such as academic, government and professional hours for P-12.
3. Ensure that faculty upload their licenses and credentials, even if they're expired.
4. Require faculty to upload syllabi.

STREAMLINE ACCREDITATION WITH CURRENT CAEP REPORTS

- Prepare for reaccreditation with an always up-to-date report
- Showcase your faculty qualifications alongside student results
- Get the information you need when you need it, without repeated requests to faculty

MEET STATE AND FEDERAL REQUIREMENTS

- Run comprehensive reports for the Department of Public Instruction in minutes
- Prove that your school meets federal standards and state statutes with information at your fingertips

TELL YOUR UNIVERSITY'S BEST STORY

- Capture community outreach, guest teaching, awards, publications, interviews, fellowships, panels and more
- Communicate your university's vision and successes to key stakeholders
- Publish attractive faculty web profiles that attract graduate students, media, donors and more

SIMPLIFY COLLECTING FACULTY ACTIVITIES

- Make common tasks more efficient for your faculty, staff and administration
- Capture information for important university activities such as annual reviews, promotion and tenure and merit pay
- Save time producing reports by leveraging centralized, digital faculty information

MONITOR CURRICULUM DEVELOPMENT

- Access curriculum details during curriculum and academic program reviews
- Track the depth of learning experiences created by your faculty and the resulting student development

TAILOR IT FOR THE SCHOOL OF EDUCATION

- Ensure that faculty information is tracked correctly with terms customized to your university
- Collect all of activities, from school and community partnerships, to guest teaching and more
- Demonstrate your faculty's professional development

ABOUT DIGITAL MEASURES

Digital Measures focuses exclusively on web-based data management, reporting and digital workflows for higher education. Three out of five of the leading U.S. universities trust Activity Insight, its market-leading faculty management system. With Activity Insight, more than 400,000 faculty members in 15+ countries share stories of personal and institutional success. Founded in 1999, the company is based in Milwaukee, Wisconsin. Find out more at digitalmeasures.com or call 866.348.5677.
