

KEYCLOUD: BETTER SUPPORT FOR YOUR LEGACY IBM i APPLICATIONS

KeyCloud is a managed, highly scalable, SAN-backed cloud that can enable you to better support your legacy applications. KeyCloud offers high performance and robust security, all managed by our team of experienced IT professionals. We can guarantee performance in ways that a typical cloud cannot, and we make sure that you have the resources you need to move your IBM i applications to the cloud.

GET RID OF YOUR IBM i HARDWARE AND SECURELY PLACE YOUR WORKLOADS IN THE CLOUD:

LET US HOST YOUR LEGACY APPLICATIONS

Remove the burden of on premise management and let us provide simple, flexible, and reliable infrastructure

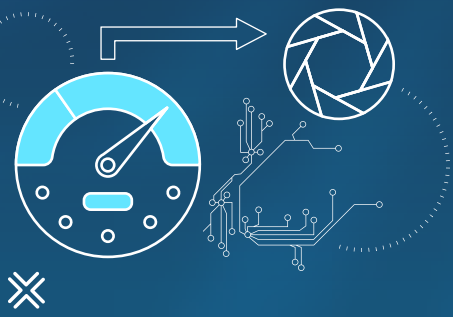

- Our carrier-grade data center creates 99.999% uptime
- Affordable way to enterprise class infrastructure
- Built on IBM Power8 systems, 15X faster than IBM520s

LOWER YOUR TOTAL COST OF OWNERSHIP

Rather than continuing to invest in hardware refreshes and maintenance cycles, we can handle it for you

- Peak performance that adheres to any security standards
- More predictable OpEx cost structure
- Host your existing workloads, as well as future growth

HIGH PERFORMANCE STORAGE OPTIONS

KeyCloud offers a choice between SAN, Flash, and External storage so you dynamically scale between them as needed

- Easily match performance and budget with workload needs
- Dynamically scale storage through a self-serve portal
- Our Flash Storage runs at 248,000 IOPS

ZERO DOWNTIME BACKUP

With our integrated backup and recovery service, you will never have to waste time backing up your legacy applications

- Your business is always up and running
- Get monthly operational and capacity reports
- Customized to your unique needs, never "cookie-cutter"

WHY RELY ON KEYCLOUD?

We'll work with you to create an Infrastructure-as-a-Service solution to meet your specific workload needs.

openstack

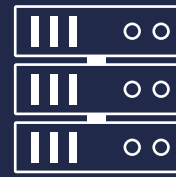

Provisioned through OpenStack

All of our configurations are customized to your needs

HIPPA, and SSAE SOC compliance

We operate all of our data centers

LET US MANAGE YOUR CLOUD, WHILE YOU MANAGE YOUR BUSINESS
