

As we progress through the pandemic and more of my patients are fully vaccinated I have adjusted my procedures.

1. Reschedule if you are feeling sick.
2. Please wear a mask.
3. Only 1 patient will be allowed in at a time.
4. I will use a contactless thermometer to take your temperature when you arrive and if it is over 100.4 we will reschedule.
5. The hard surfaces in the treatment room will be sanitized before and after your visit.
6. All linens and gowns in my treatment rooms will be clean and will be washed after your visit.
7. I will be wearing a cloth mask and following clean needle protocols.*

*Clean Needle Technique is a best practices for acupuncturists. A pdf copy of the manual is posted on my website.
