

Recommendation for Dr. Tian

I was diagnosed with [Chronic Lymphocytic Leukemia \(CLL\)](#) back in [1993](#). Since then I saw an alternative doctor, and went on the Gerson protocol (a lot of raw vegetable juices), and intravenous vitamin C therapy. This worked for a while, then stopped working well around the late 1990s. Fortunately, I came across a Yahoo Group for Alternative Therapies for CLL. One of the contributors to the forum was Ellen, a patient of Dr. Tian, and highly recommended him to me. She sent me some pictures of how her swollen lymph nodes in her neck disappeared. In [2000](#), I was able to see Dr. Tian, and was really impressed with his knowledge of CLL and other cancers, he even knew more about the diagnostic genetic markers for CLL than my CLL oncologist!

In my case, he had specific acupuncture points that helped with my [low platelets](#), and Traditional Chinese Formulas (TCM) that helped with my platelets, CLL, and [Gall Bladder](#) as I have had problems ever since I had my Gall Bladder removed.

Dr. Tian, also helped me out with a lot of other issues. One result, I found amazing was helping me recover my [eyesight](#) in my left eye, after I had [shingles](#) affecting my left eye. At first, I had about 1/3 of my lower field of vision completely blacked out – after about a year of treatment with acupuncture, this resolved completely!

Besides his vast knowledge of TCM, Acupuncture, and cancer, he's helped with a lot of other medical problems my family and friends have had – the latest was that he was helpful with my brother's [Parkinson's](#).

Now it's [2026](#), and I'm still going strong with Dr. Tian's TCM formulas keeping me going.

When I was diagnosed in [1992](#), I was told I might have a year left and that CLL was one of the better cancers – now with Dr. Tian's help, I'm still here over [34](#) years later!

I found out that Dr. Tian is a very caring person, and so grateful I was able to meet him.

I highly recommend Dr. Tian, for Cancer treatment or other medical issues! If this site would Allow it I'd give a rating of 11+ stars out of 10. I hope whoever reads this can get in touch with Dr. Tian to help them on their TCM/Acupuncture healing journey!
