

Hi!

I am looking forward to seeing you and getting back to work! My intention is to provide the safest, most comfortable treatment space for you to receive the same quality care you have come to appreciate. In order to accomplish this, I have made the following adjustments:

Appointments: I have built in time between clients in order to sanitize all touch surfaces. If you arrive early, please wait outside of my office or in your car.

Masks: Must be worn at all times.

Hand sanitizing and Air Purifying: There will be several hand sanitizers around the space for your use. There is a bathroom on the first floor for washing your hands. I have a HEPA air sanitizer/purifier for the treatment room that will be running.

Cancellations: I am waiving all late cancellation fees related to illness at this time. I want you to feel free to reschedule/cancel should any of the following arise before your scheduled appointment:

- Fever
- Shortness of breath
- Cough
- Chills
- Headache
- Loss of smell or taste
- Sore throat
- Known exposure to Covid 19

Prescreening: I ask that prior to every treatment, you let me know if you have experienced any of the above listed symptoms/ situations in the prior 14 days. If you have, you will be asked to cancel your appointment and reschedule. Cooperation with this is imperative to keeping everyone safe while you are in my clinic.

Fees: Cash, check, Venmo or PayPal are preferred at this time.

\$110 for new patients.

\$85 for returning patients.

\$300 package of 4 treatments (returning patients only).

I am, however, prepared to take HSA/FSA cards and credit cards. I am still a provider for BCBSTX and United HealthCare, but not all plans cover acupuncture.

My Commitment/Disclosure: I am doing what I can to minimize my risk of exposure to Covid 19 during this time. I am now fully vaccinated, but I am still practicing social distancing, wearing a mask in public, and staying very close to home. My husband is doing the same and is teaching via online, however, my daughter is now attending school in-person and she does participate in soccer.

I am hopeful that the adjustments I have made to reduce the risk of exposure to the virus in my clinic brings assurance and confidence in your decision to resume your acupuncture treatment.

If you have any questions or concerns, please reach out!

Cameron
