Sean Honea,

Declaring “National Emergency Medical Services Week” in November in 1974, the then U.S. President, Gerald Ford, began a great tradition of showing appreciation for the nation’s first responders. This tradition continues today as we celebrate the 43<sup>rd</sup> Annual EMS Week. Over the years, our community continues to surprise us with their charity and respect for our profession.

Established by legislation in 1991, Richmond Ambulance Authority began its journey and quickly grew as a national standard of excellence in patient care and public service for emergency medical services. Through the hard work and dedication of the men and women who work for and with the Authority our community, citizens, and guests receive care and education.

We greatly appreciate your generosity and support during EMS Week, May 21 through May 27. Your donation to Richmond Ambulance Authority, a 501-c non-profit, created many smiles and thanks from our providers.

Thank you again for your contribution of 5 - initial treatment gift cards. We wish you a safe and successful year and hope to continue our relationship for years to come.

With Gratitude,

Ray Mallory, NRP
