

# Timber 4

Hardwood Wall Rack

by  **StoreYourBoard™**

## THANK YOU FOR YOUR PURCHASE!

Please read all instructions before installing this product

### SAFETY INSTRUCTIONS & PRODUCT WARNINGS

It is the user's responsibility to ensure the safe and proper use of this product. StoreYourBoard.com, a Spire LLC company, is not responsible for damage or injuries related to installation or use, including improper or inadequate mounting. Wear eye protection during installation and check for electrical wiring in the wall before screwing or drilling into the wall. **Not a toy; not intended for children. Misuse of this product could result in serious injury or death.**

### Includes

- (2) Wall Plates
- (8) Arms
- (4) Wall Screws
- (16) Arm Bolts

**Weight Limit 20 LBS. per Level**

### Rack Assembly

1. Attach each arm by threading the Arm Bolts through the holes in the Wall Plates, from rear of the plate to front.
2. Tighten into threaded inserts anchored in each arm.
3. Complete for all 8 arms.

### Wall Mounting for 4 Horizontal Boards

- A. Use a stud finder to locate 2 wall studs for anchoring. Mark the stud's centerline. Do not attempt to hang on drywall alone.
- B. Hold first Wall Plate over the first stud's centerline and mark location of holes.
- C. Use a tape measure to find distance to holes from either the floor or ceiling.
- D. Using the distance measured, mark holes for the second Wall Plate over a second stud.
- E. Use a small diameter drill bit (diameter needs to be smaller than the diameter of the wall screws) to drill pilot holes at marked locations.
- F. Confirm you have drilled into studs.
- G. Use a hand or power drill to hang each wall plate with the screws provided.

Bringing you the best racks, bags & accessories.
