Purpose of the Annual Security Report

This Annual Security Report (“Report”) is intended to inform all current and prospective students and employees (faculty, staff, and administrators) about safety and security at The College of Saint Rose (“Saint Rose”). This Report is in accordance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, as amended (“Clery Act”).

Saint Rose is concerned about the safety and welfare of all campus members and guests and commits itself to promoting a safe and secure environment. Because no campus can totally isolate itself from crime, Saint Rose has developed a series of policies and procedures designed to ensure that every possible precaution is taken to protect the campus community. Saint Rose has one of the best safety records of colleges of its size in New York State and, together, we can maintain a safe and secure campus environment.

What is the Clery Act?
The Clery Act is a federal law that requires colleges and universities to disclose information about crime on and around their campuses. The Clery Act is named in memory of Jeanne Clery, a 19-year-old Lehigh University freshman who was assaulted and murdered in her residence hall room on April 5, 1986.

To Review Crime Statistics for All Colleges and Universities:
In accordance with the Clery Act, the College provides its campus crime statistics to the U.S. Department of Education. Statistics for the College and other institutions are available at: http://ope.ed.gov/security.

Saint Rose’s Report Preparation:
The Report is prepared by representatives from the Office of the President, the Office of Safety and Security, and Student Affairs at the College. The crime statistics are compiled from reports and reviewed by the Office of Safety and Security, Campus Security Authorities, Albany Police Department, and the University Police Department for the University at Albany.

To Obtain a Printed Copy of the Report:
Saint Rose’s Report may be accessed and printed online at: www.strose.edu/securityreport. In addition, a printed copy of the Report is available as follows:

- Request a copy in person at the Office of Safety and Security during regular business hours at 340 Western Avenue;
- Call Steve Stella, Director of Safety and Security at 518-454-5139; or
- Send a written request by mail to:

Procedures for Reporting Criminal Actions and Other Emergencies

On Campus Reporting:
All crime victims and witnesses are strongly encouraged to immediately report crimes to Security and/or the appropriate police agency. Security is committed to working with the Saint Rose community to resolve all criminal matters in a timely fashion. Prompt reporting will help Saint Rose appropriately warn and protect the campus community.

Security:
Security is charged with ensuring the safety and security of the entire Saint Rose community. Everyone is encouraged to report all crimes, emergencies, accidents/injuries and unusual occurrences to Security immediately as follows:

- Go directly to a Security Post in either the Lobby of Lima or Brubacher Halls, Picotte Hall, or at the Security Headquarters located at 340 Western Avenue (Corner of Western Avenue and Partridge Street).
- Dial 518-454-5187 from your mobile phone.
- Dial 911 or extension 5187 from any campus extension.
- Push the “security” button from any campus extension.
- Operate one of the many emergency blue light call boxes strategically located throughout the campus.

Security Officers will meet individuals anywhere on campus to investigate and inquire about any crime or concern on campus. Crimes reported to Security will be recorded and may be referred to the appropriate law enforcement agency for investigation.

Campus Security Authorities:
In addition, individuals may report crimes to a Campus Security Authority (CSA). At Saint Rose, designated administrators and faculty who have significant responsibilities for student and campus activities are CSAs. If a crime is reported to a CSA, that individual is obligated to provide information about the crime to Security and others at Saint Rose as necessary. If the crime is reportable under the Clery Act, it will be included in this Report.

CSAs are instructed to report crimes they become aware of to the Department of Safety and Security or the Albany Police. Other members of the Saint Rose community are encouraged to report information about crimes on campus to Security.

Although this list does not include every CSA, you may contact any of the following Saint Rose employees to obtain immediate assistance if you are the victim or otherwise aware of a crime on campus. These CSAs are generally available Monday through Friday during regular business hours. Victims are encouraged to call Campus Security at 518-454-5187 (or 911 from any campus phone) at all other times.

Saint Rose Security Policies

Office of Safety and Security Information:
Security works closely with all departments, units, and offices at Saint Rose to ensure that safety policies and procedures are uniformly executed and conveyed in a clear and consistent manner to all current and prospective students and employees.

The Security Office is located at 340 Western Avenue and staffed 24 hours a day, 365 days a year. Uniformed Security Officers provide around-the-clock patrol, select fixed post access control, and other services to the Saint Rose campus community.

Enforcement Authority:
- The Office of Safety and Security includes the following positions:
  - Security Director
  - Security Lieutenant
  - Security Sergeant
  - Security Corporal
  - Security Officer
  - Security Driver

- All individuals who hold the positions of Security Officer or higher are licensed in the State of New York as unarmed private security officers and are trained in basic first aid and CPR. All Security supervisors and select Security Officers receive additional Campus Public Safety Officer Training through the Zone Five Regional Law Enforcement Training Academy.

- Saint Rose values well-trained and informed Security staff. Security Officers attend various training seminars and informative conferences throughout the year.

- Security Officers are responsible for a full range of safety services at Saint Rose, including, but not limited to, responding to reports of crimes, medical emergencies, fire emergencies, traffic accidents, and enforcement of all Saint Rose policies including those relating to alcohol use, drug use, and weapons possession. Security Officers submit incident reports on all crimes and incidents of note on campus reported to the Office by victims, witnesses, and others including Campus Security Authorities.

- Security Officers have the authority to ask persons for identification and to determine whether individuals have lawful business at Saint Rose. Security Officers have the authority to issue parking to anyone parked on campus in violation of the parking rules and regulations.

- Security Corporals, Sergeants, Lieutenants and the Director have authority to make warrantless arrests when they have reasonable cause under the aegis of the Albany Police Department.
Relationship with Local Police Departments:

- Criminal incidents are referred to the Albany Police Department or the University Police Department for the University at Albany, both of whom have jurisdiction on Saint Rose’s campus through Memoranda of Understanding. Security at Saint Rose maintains a highly professional working relationship with both of these law enforcement agencies.

- Off campus incidents involving Saint Rose students are shared with Saint Rose Security and these agencies when this status is relevant and known. Saint Rose maintains the right to pursue judicial sanctions against students violating student conduct policies off campus.

Security Awareness & Crime Prevention:

- Saint Rose Security encourages members of the Campus community to take personal responsibility for their own safety by offering services designed to increase Security awareness and opportunities to be proactive.

- Security crime prevention services include:

  1. **Escort Service:** Security Officers provide on-campus escorts 24 hours a day, seven days a week to students and employees upon request. Members of the campus community arriving from off-campus may contact Security to arrange for an escort when they arrive at the Saint Rose campus.

  2. **Shuttle U Home:** In addition to on demand escort services, Saint Rose Security runs the Shuttle You home service. Through this service, from 7:00 pm to 1:00 am, students and employees may be driven to their homes that are within a two mile radius of the Saint Rose campus. On campus, the shuttle picks up students and employees at the back of the Thelma P. Lally School of Education building. Students and employees may call Security to find out when a shuttle will be arriving.

  3. **Emergency Blue Light Phone System:** These phones are located on campus walkways and in parking lots. They can be used to contact Saint Rose Security in an emergency situation or to request a security escort.

Security Programming:

- The goals of Saint Rose’s crime prevention programming are to minimize criminal opportunities whenever possible and encourage individuals to take their own security and the security of others into consideration. Numerous presentations are made throughout the year to various campus constituencies including resident and commuter students, Resident Assistants, and employees. In addition, any office, department or unit may request additional training through the Security Director.
• Campus Security makes students and employees aware of the availability of its services through articles and/or announcements in the student newspaper, sending out emails, and by having staffed information tables in the Events and Athletics Center (EAC) periodically throughout the year at events such as orientation. In addition, Campus Security provides safety and security workshops to first year and transfer undergraduate students during orientation and to the general campus population at least twice during each Fall and Spring semester.

• Campus safety and crime prevention programs for commuter students are held each semester during daytime and evening class hours, so the training reaches both full- and part-time undergraduate and graduate students.

• Residence Life staff members undergo thorough safety and security awareness, crime prevention and fire prevention training provided by Security at least once each academic year. In addition, applicable local and/or state agencies may provide Saint Rose’s Resident Assistants with supplemental programming in these areas.

• All new employees are required to attend a mandatory workshop on Sexual Assault/Harassment and the Clery Act. There is on-going training and awareness programming to provide current students and employees information on personal safety, sexual and relationship violence, stalking, and bystander intervention strategies.

E. New York State Law and Sanctions Governing Alcohol Include:

a. The use of alcoholic beverages is subject to the New York State Alcoholic
Beverage Control Law and certain provisions of the New York Penal Law. It is important to understand these laws clearly, as they pertain to the possession, sale or serving of alcoholic beverages.

b. It is illegal for individuals under the age of 21 to possess alcoholic beverages. Underage drinkers are subject to a $50 fine.

c. An underage drinker who uses fraudulent identification is guilty of a violation punishable by a fine of up to $100 and community service of thirty hours. If the fraudulent identification is a New York State driver's license, the revocation of the license will be added to the above penalty.

d. No person may sell, deliver or give any alcoholic beverage to a person under the age of 21 (the law does not apply to the parent of a minor). Individuals violating this law are guilty of a "Class B misdemeanor," and may be subject to a fine not exceeding $500 and a term of imprisonment not to exceed three months.

e. A person who misrepresents the age of a person under 21 for the purpose of inducing the sale of alcohol to the "underage" person is guilty of an offense and is subject to a fine of not more than $200 and imprisonment not to exceed five days, or both.

f. Any person who shall be injured in person, property, means of support or otherwise by reason of intoxicated person, or by reason of the intoxication of any person who shall, by unlawfully selling to or unlawfully assisting in procuring liquor to such intoxication; and any such person shall have the right to recover actual damages.

g. Any person who shall be injured in person, property, means of support or otherwise by reason of intoxication or impairment of any person under the age of 21 years old shall have a right of action against any person who knowingly causes such intoxication or impairment by unlawfully furnishing to or assisting in procuring alcohol for such a person with knowledge or cause to believe that such person was under the age of 21 years.

h. Any event or function at which alcoholic beverage(s) are being sold or, an admission fee or donation is charged or requested, requires a license from the state.

F. New York State Law and Sanctions Governing Illicit Drugs

Marijuana

Article 221 of the Penal Law of the State of New York is a special section of the law dealing with offenses involving marijuana. In total, there are 12 subsections which deal with the definition, possession and sale of marijuana. Possession of marijuana in any amount is illegal.
Sale of marijuana will, at minimum, be considered a misdemeanor and, at maximum, will be considered a "Class C felony," carrying with it a minimum jail sentence from five to 15 years. Keep in mind that being convicted under these statutes results in a permanent criminal record which may have a serious impact on a person's future educational or professional plans.

Controlled Substances

Section 220 of the Penal Law defines those drugs considered "Controlled Substances," including narcotic drugs, narcotic preparation, hallucinogens (LSD, "hallucinogenic mushrooms," etc.), stimulants, depressants and concentrated forms of cannabis. Individual statutes deal with the criminal possession or sale of these substances and are categorized as misdemeanors or felonies depending on the specific substance, the amount of the substance in question, or the circumstances surrounding the possession or sale of the substance. Possession or sale (or possession with intent to sell) of even a very small amount of some substances is considered a felonious offense and may result in a lengthy jail sentence. In fact, with the exception of "criminal possession of a controlled substance in the seventh degree," which is considered a misdemeanor, all other statutes in Section 220 of the Penal Law are felonies. In New York State, felonies are ranked from category A-1, the most serious, to category E, the least serious. First offenders convicted of a category A-1 felony are subject to a minimum sentence of from 15-25 years and a maximum of life imprisonment. At the other end of the scale, for the first offender, category E felony convictions carry with them a jail sentence of from one to three years, with a maximum of three to four years. First-degree criminal sale or possession of controlled substances is placed in the same category as first degree arson, first degree kidnapping, or first-or-second degree murder.

G. Health Risks Associated with Alcohol and Drug Use/Abuse

**Alcohol.** Alcohol consumption causes a number of changes in behavior and physiology. Even low doses significantly impair judgment, coordination, and abstract mental functioning. Statistics show that alcohol use is involved in a majority of violent behaviors on college campuses, including acquaintance rape, vandalism, fights, and incidents of drinking and driving. Continued abuse may lead to dependency, which often causes permanent damage to vital organs and deterioration of a healthy lifestyle.

**Cannabis (Marijuana, Hashish).** The use of marijuana may impair or reduce short-term memory and comprehension, alter sense of time, and reduce coordination and energy level. Users often have a lowered immune system and an increased risk of lung cancer. The active ingredient in marijuana, THC, is stored in the fatty tissues of the brain and reproductive system for a minimum of 28 to 30 days.

**Hallucinogens.** Lysergic acid (LSD), mescaline, and psilocybin cause illusions and hallucinations. The user may experience panic, confusion, suspicion, anxiety, and loss of control. Delayed effects, or flashbacks, can occur even when use has ceased. Phencyclidine (PCP) affects the section of the brain that controls the intellect and keeps instincts in check. Because the drug blocks pain receptors, violent PCP episodes may result in self-inflicted injuries.

**Cocaine/Crack.** Cocaine users often have a stuffy, runny nose and may have a perforated nasal septum. The immediate effects of cocaine use include dilated pupils and elevated blood pressure, heart rate, respiratory rate, and body temperature followed by depression. Crack, or freebase rock cocaine, is
extremely addictive and can cause delirium, hallucinations, blurred vision, severe chest pain, muscle spasms, convulsions, and even death.

**Amphetamines.** Amphetamines can cause rapid or irregular heartbeat, tremors, loss of coordination, collapse, and death. Heavy users are prone to irrational acts.

**Heroin.** Heroin is an opiate drug that causes the body to have diminished pain reactions. The use of heroin can result in coma or death due to a reduction in heart rate.

### H. Immunity Statement

The College of Saint Rose strongly encourages students who witness another student in physical or mental distress (i.e. sick, overdosing, injured, etc.) to immediately contact the Department of Safety and Security at 518-454-5187 or 911 from a campus phone. The College recognizes that students who have been drinking and/or using drugs (whether such use is voluntary or involuntary) at the time that they are a witness to another student in physical distress may be hesitant to call for help during such incidents due to fear of potential consequences for their own conduct. However, as the health and safety of every student at the College is of utmost importance, a reporting student acting in good faith who alerts the College to a student in distress will not be subject to the College's Student Conduct process for violations of alcohol and/or drug use policies occurring at or near the time of the commission of the incident.

### I. Substance Abuse Prevention Program

a. The College provides training on alcohol and drug abuse prevention to all new undergraduate students either through face to face sessions or online programming. The Office of Residence Life also offers programming over the course of the academic year that addresses substance abuse issues for resident students.

b. The “Late Knight” Programs via the Office of Student Life are Alcohol/ Drug Free Alternative Programs.

c. Students may seek assistance with issues surrounding substance abuse at the Counseling center which provides free short-term psychological services to students, and provides consultation and referral to community services as appropriate for chronic, long-term issues. All counseling is strictly confidential in accordance with established professional guidelines. Services are provided or supervised by licensed professionals. The Center is a training site for masters and doctoral students from related professional fields.

d. The College has contracted an independent agency to provide an Employee Assistance Program (EAP). The goal of the program is to help individuals and, when necessary, their families to resolve issues which may have a negative impact on job or school performance. It is a confidential service designed for the use of employees at Saint Rose. The EAP provides early identification, motivation, referral to treatment and follow-up of employees experiencing a deterioration of work performance. The EAP can address such issues as alcoholism, alcohol/ substance abuse, emotional problems, stress, depression and marital/family problems. Resource people may be able to help on their own or may refer you to a specialized professional agency. The EAP is a voluntary program.
Sexual Harassment and Misconduct Policy Statement

The College of Saint Rose is committed to creating and maintaining a safe environment for all of its students and employees. All forms of sexual misconduct offenses and other non-consensual sexual contact by members of the Saint Rose community will not be tolerated by the College and represent a violation of College policy and the law. Violation of the College’s Sexual Harassment and Misconduct Policy will result in the responsive action, as prescribed under Title IX including investigation of what occurred; action to stop the prohibited conduct; remedial support for the victim of the conduct and, as necessary, for the broader community; and action to reasonably prevent the re-occurrence of the behavior. This may result in possible suspension, dismissal or termination from the College.

A full copy of the College’s Sexual Harassment and Misconduct Policy is at the end of this Annual Security Report as Appendix A and is available on the College’s website at www.strose.edu/titleix.
Emergency Response and Evacuation Procedures

1. Introduction

The College is committed to providing a safe educational and work environment. One measure of an organization's strength is its ability to respond well in an emergency. Since every emergency scenario cannot be predicted, an emergency response plan must be able to quickly adapt to events as they unfold. The following Emergency Response Plan (ERP) designates areas of responsibility and defines for The College of Saint Rose (the “College”) the framework necessary to respond to emergency situations.

The purpose of an ERP is to provide an effective means of communicating contingency and emergency plan responses and evacuation procedures to all campus constituencies in the event of natural, man-made or other disasters and potential emergencies. The implementation of an emergency action plan is essential to ensuring the safety and well-being of students, faculty, staff and visitors. Unforeseen events of all types occur despite all efforts to prevent them; therefore, it is necessary to develop effective emergency procedures to respond to these situations.

Campus officials and responding organizations should know what is expected of them when emergency responses are necessary. Being aware of one’s responsibility in the event of an emergency will increase the likelihood of responding to critical situations effectively and efficiently.

A. Comprehensive Emergency Management Process

Emergency management is a continuous process, which includes activities to prevent occurrences and includes planning and response activities to ensure that the College is prepared to respond to and recover from occurrences.

a. Planning, Prevention, and Mitigation
   Planning refers to the periodic risk assessment of potential hazards at the College, plus a historical review of emergency situations in the area, which inform the development and refinement of an ERP. Planning activities should also include discussions with off-campus providers of emergency services, such as local emergency responders. The plan should also include contingency planning for critical services and incident recovery, including cleanup.

   Prevention refers to those short or long-term activities that eliminate or reduce the number of occurrences of emergencies and disasters.

   Mitigation refers to all activities that reduce the effects of emergencies and disasters when they do occur.

b. Response
   Most response activities follow the immediate impact of an emergency or disaster. Generally, they are designed to minimize casualties and protect property to the extent possible through emergency assistance. They also seek to reduce the probability of secondary damage and to speed recovery operations.
A response is required when:
1. The College is damaged or exposed in some way
2. Evacuation or special sheltering of all or part of the College may be required because immediate and ensuing threats are uncontrollable

Response activities include:
1. Assessing and monitoring the hazard
2. Alerting and warning endangered populations
3. Alerting response forces to stand by
4. Evacuating or special sheltering of threatened populations
5. Dispensing and/or relocating critical equipment and resources

Recovery
Recovery activities are those following an emergency or disaster to correct adverse conditions, and to protect and return the quality of life to the campus.

Recovery activities will include measures to:
1. Prevent or mitigate a recurrence of the emergency
2. Implement contingency plans
3. Provide psychological support
4. Address public health needs
5. Activate support services such as the American Red Cross
6. Reinstate College services
7. Restore private and public property
8. Repopulate evacuated areas

B. Levels of Emergencies

Emergencies can occur on many levels. The emergency response may be as simple as a departmental response to repair a building component or complex involving the coordination of multiple campus operations and community response organizations.

The College has adopted a three tier system of incident severity levels to structure the College response.

a. Level I – Minor Emergency
A Minor Emergency situation involves an event that is occurring or may occur that could negatively affect one or more college students, employees or visitors. The response may involve calling in personnel and notifying the department where the problem occurred.

These situations are characterized by the following:
1. No immediate danger or emergency exists, but the potential is present
2. The incident appears to be of short duration
3. The situation is limited in scope, such as a broken water pipe, and can be managed by the appropriate administrative area of the College
4. The situation is usually a one dimensional event that has a limited duration and little impact to the campus community beyond those using the space/building in which it occurred
Examples of a Minor Emergency situation include:
1. A severe storm watch issued by the National Weather Service
2. A fire or hazardous materials incident within two (2) miles of an owned facility
3. A minor building system problem
4. A local power outage
5. A minor fire at the College confined to a small area with no hazardous material exposure
6. Minor chemical or fuel spills at the College
7. A loss of heat and/or electricity to a single building, which is expected to last no longer than a few hours

b. Level II - Major Emergency
A Major Emergency situation indicates a risk exists or a situation is about to occur that will impact one or more of the College buildings, students, and/or employees. The presented risk requires that a preparatory status be adopted.

A Major Emergency situation is characterized by the following:
1. The potential danger is real and College personnel should be prepared to react
2. The situation has the potential for expanding beyond a specific physical area
3. The situation may continue for an extended period
4. Resolving the situation may require a response by multiple College departments and/or response by an outside agency

Examples of a Level II situation include:
1. A severe storm warning issued by the National Weather Service
2. A major fire or hazardous materials incident within one-half (1/2) mile of a College owned facility
3. A major building system failure

c. Level III - Disaster
Disaster Level situations impact a sizable portion or all of the campus and/or outside community. These situations tend to be people focused. Responses to these emergencies often require considerable and timely coordination both within and, at times, outside of the College. A Disaster Level indicates that a situation is occurring and requires a response by the College.

A Disaster Level situation is characterized by the following:
1. College students, employees and guests are in danger and/or facilities and equipment are at risk. Immediate action is necessary
2. The incident is on College property, or it is off College property but close enough to affect a facility or involve College student, employee or guest
3. The situation requires the coordination of College resources or coordination with outside agencies

Examples of a Disaster situation include:
1. A fire or hazardous materials incident occurring at a College facility
2. A major storm or weather event that is causing or has caused injury/damage
3. Active shooter
4. Death on campus
5. Serial sexual assaults
6. Hate crimes
7. Bomb threats
8. Extended power outage
9. Contagious disease outbreak

C. Entities Involved In the College Response

a. Incident Commander (IC)
The first arriving EMT member at an emergency will assume Incident Command until relieved by appropriate emergency first response personnel or when relieved by the IC appointed by the Emergency Management Team as noted below. The Incident Commander function is frequently assumed by a member of the College’s Safety and Security Department.

   Priority tasks include:
   1. Limit the growth of the incident
   2. Ensure the safety of the community and first responders
   3. Stabilize the scene
   4. Determine threat level
   5. Establish communications and control
   6. Identify any “danger zones”
   7. Establish an inner perimeter to secure the “danger zone”
   8. Establish an outer perimeter to control access to the entire scene
   9. Establish a staging area
   10. Request needed resources

b. Emergency Management Team (EMT)
The EMT provides strategic oversight of the College’s emergency response. The EMT makes policy determinations regarding response actions. Appendix A lists the EMT members.

1. Certain individuals within the EMT are identified as Conveners. A convener is an EMT member with the authority to activate the College response to an emergency as follows:
   i. Determine/confirm the level of emergency;
   ii. Determine whether to convene the EMT and/or EOG:
   iii. Set the direction as to how the emergency will be managed;
   iv. Make key executive decisions; and
   v. Notify the President

2. The role of the EMT includes:
   i. Determine if "state of campus emergency" is or is not necessary
   ii. Assign individuals from available personnel to assist with the additional evacuations
   iii. Based on the severity and extent of the emergency, determine whether to recall evacuated personnel or release them.
   iv. Appoint an Incident Commander (IC) to lead the operational response to the emergency. The IC may be a member of the EMT or EOG or other College employee outside of these groups and is the individual with primary responsibility for implementing the College response to the emergency
v. Convene the EOG if necessary
vi. Brief the College President at regular intervals during the incident
vii. Notify students/employees of the emergency condition via the emergency notification system, the emergency blue light public address system and/or building public address system(s) where available
viii. Approve overall priorities & strategies
ix. Approve public information reports & instructions
x. Gather information for Communications so that College statements for the media can be prepared. Ensure that electronic and print media services are available and operational for use by Communications
xi. Provide for counseling and spiritual intervention
xii. Liaison with applicable federal, state or local government agencies and/or external organizations

c. Emergency Operations Group (EOG)
The EOG provides operational oversight to aid in the College’s emergency response. Appendix A lists the EOG members/alternates.

The role of the EOG is to:
1. Request that additional College employees be temporarily assigned to the EOG if necessary
2. Gather, confirm and evaluate incident information
3. Develop an incident action plan to resolve specific priority situations
4. Ensure the Associate Vice President for Operations has overseen the shutdown of necessary equipment
5. Determine the College needs for temporary class, faculty, business operations space and/or housing
6. Report findings and action plan to the EMT
7. Request additional resources as needed
8. Identify resource needs and shortfalls
9. Reassign/deploy individuals in support of critical needs
10. Serve as the link to local, state, and federal emergency coordination centers

D. Outside Agencies and Response Coordination

Federal, state, and/or local government agencies and emergency service organizations play an essential role as the first line of defense in responding to some high-impact emergencies. Some emergencies will initiate an immediate response for outside agencies and, in other scenarios, the College may request the involvement of outside agencies. In responding to an emergency or disaster, the College will initially rely on the full use of the College’s facilities, equipment, supplies, personnel, and resources, as well as the resources of private entities (e.g. contractors) as needed to resolve the emergency or disaster as quickly as possible to minimize its impact on the College community.

When an emergency or disaster is beyond the local management capability of the College and local resources are inadequate, the President may obtain assistance from other political subdivisions and governmental agencies with jurisdiction.

The EMT has the authority to direct and coordinate campus disaster operations and may subrogate this
authority to an outside agency. Alternately, in disaster level scenarios, outside agencies will typically exercise their authority to assume command and control of the emergency response. In this scenario, the EMT and/or the College’s designated IC will be the primary liaison with the outside agency. Outside agencies, which may exercise command and control, include the Albany Fire Department, the Albany Police Department, County or State Health Departments, as well as the state or federal emergency management offices.

**a. Additional Roles and Responsibilities**

Additional College offices/departments are expected to assume various roles at the request of the EOG in an effort to provide a coordinated response to an emergency. In some circumstances, the EOG may direct faculty or staff to assume temporary roles outside the normal scope of their duties. In these situations, the EOG will consider the skills and abilities of individuals to carry out those temporary roles prior to making the assignment. Any employees in departments that do not have specific roles related to the emergency response will become part of a "pool" of reserve personnel to assist as assigned by those coordinating the specific emergency.

Some individuals have specific responsibilities during an emergency. A list of those departments and individuals with a partial notation of their responsibilities is included in Appendix B.

**b. Training**

Proper training is a key element enabling employees to respond to emergency situations. Effective emergency management includes interaction between campus officials and local emergency responders. Emergency plans should be in place and rehearsed internally through “tabletop” exercises with key campus personnel and local emergency responders to ensure their ability to function in the event of an actual emergency or disaster. The EMT schedules tabletop exercises to allow the members of both the EMT and EOG to apply the knowledge gained from actual experience and prior training to simulated emergency situations.

The members of the EMT continually survey training resources and make available training to members of the EMT and EOG, as appropriate.

The Federal Emergency Management Agency (FEMA) makes available a number of training resources. A list of on-line courses offered by FEMA is available at [http://training.fema.gov/IS/crslist.asp](http://training.fema.gov/IS/crslist.asp).

**c. Response Framework**

1. **Direction and Coordination of an Emergency**

   The College will follow a series of steps initiated with the identification of an emergency situation.

   i. With the identification of an emergency situation or with information indicating a potential for a future emergency, an employee should contact the Department of Safety and Security (SSD) immediately. All employees have the responsibility to report emergency conditions immediately to the SSD. The SSD may be contacted at 518-454-5187, via internal extension at 5187, or by dialing 911 on any College phone.
ii. The SSD will dispatch Security Officers and make calls for appropriate law enforcement and/or emergency services to respond to a situation. For any emergency call, the Dispatcher will notify the on-duty SSD supervisor, who will contact the Director of Safety and Security to apprise him/her of the emergency. The SSD will assume the lead role for scene control until emergency aid responders arrive on-site.

iii. The SSD will notify the Conveners of the EMT when emergency information is received, except for most Level I emergencies, which will be communicated through routine channels to the appropriate departments for response.

Level I emergencies do not warrant the assembly of the Emergency Management Team. The SSD will assume the lead role until the emergency situation is no longer determined to exist or until outside emergency aid responders arrive on-site.

With Level II or III emergencies, the Security Dispatcher will notify the Director of Safety and Security who will then notify the EMT Conveners.

iv. If the nature of the emergency warrants the assembly of the EMT, the Director of Safety and Security or his designee is responsible for contacting team members. Members can be directed to meet immediately or notified that the EMT and EOG may be activated in the near future.

v. The EMT will assemble as quickly as possible in the Emergency Operations Center (EOC).

Normally, the EOC will be located at Security Headquarters, 340 Western Ave., but under certain conditions (including power outage) the EOC may be set-up at a selected back-up location where necessary telecommunication and data support facilities exist.

vi. Once the emergency has been resolved, the EMT and EOG will:

- Develop and implement a plan for a smooth transition to normal operations by coordinating with other applicable college offices/departments, or federal, state, county, and local organizations.
- Initiate a complete review of the incident under the direction of the IC.
- Direct all personnel involved in the incident to prepare an after-action report
- Provide report to the President and keep with the incident file.
- Arrange for counseling support to any staff involved in the incident.

2. **Direction and Coordination of a Potential Emergency**

When conditions permit and an impending emergency situation (example: anticipated major snow or ice storm, large campus gathering, etc) provides ample time, the EMT may assemble the EOG to formulate an incident action plan for recommendation to the EMT, or if time is of the essence, to the President or designee.

3. **Declaration of an Emergency Condition**

An EMT convener shall declare a state of emergency (an action possible for some Level III emergencies), upon recommendation of the EMT. The EMT determines that emergency procedures should be implemented and/or all or part of the College should be closed. EMT conveners or their designees shall declare an end to the state of emergency when appropriate.
The EMT conveners, in addition to declaring a state of emergency, may also initiate other actions to ensure safety during emergency situations. Those actions include:

a. **Shelter in Place** – Students, employees and campus visitors are directed to remain in or report to a sheltered area, such as any College building. This action may be taken when a threat is imminent, such as a tornado, or to prevent exposure, in the case of a chemical spill. Individuals should close window blinds and stay away from windows.

b. **Lock-down** – All doors on College buildings are locked to prevent access from the outside. Individuals finding themselves outside during a lockdown are instructed to leave campus rather than attempt to enter a locked building. This action will be taken if an active shooter is reported to be on campus. In a lockdown situation, individuals should not open doors unless police and/or other authorities are present. Individuals should close window blinds and stay away from windows.

c. **Evacuation** – Students, employees and campus visitors will be directed to evacuate all or a portion of the College campus. If an evacuation is initiated, specific instructions will be provided through the internal community notification systems. An evacuation may be initiated for a long-duration power outage, flood or other emergency situation.

4. **Emergency Communication**

   a. **Internal Community Notification**
   
   Timely and accurate communication with the campus population during an emergency situation is very important. The EMT will be responsible for providing the campus community with regularly updated information regarding the emergency.

   Media (i.e., radio, television, social media), the College website, Campus Blue Light System, College e-mail system, and the RAVE emergency communication system are used to update the campus community based on the severity of the emergency.

   Periodic updates will be provided, as time permits, through the same means. Should both the phone and data network be unavailable, staff will be dispatched from the EOC to alert residents and employees in each College building. Emergency communications, both on and off-campus, will be coordinated by Safety and Security and Strategic Communications.

   In the event that the College’s internal communications system is disrupted, the RAVE Alert System and social media outlets will be used. The SSD will set up a “command post” for the EOG at 340 Western Avenue. Members of the SSD will operate the command post communications system and are responsible for maintaining a written log of the emergency event for post incident debriefing, analysis and reporting.

   b. **External Community Notification**
   
   In the event of campus emergencies requiring notification of the media, all information collected by College employees is given to the Crisis Communications Team who will prepare official statements prior to meeting with the media. Other College employees will refrain from speaking
with the media to avoid giving inaccurate, contradicting or incomplete information.

In cases where press briefings are necessary, a press area will be established.

In cases where families are brought to campus, a gathering area will be established. Student Affairs and Spiritual Life will have primary responsibility for interacting with the families and keeping them updated on the emergency.

c. **Plan Distribution and Access**

This plan is distributed to members of the EMT and department heads. A master copy of the document is maintained by the Chair of the EMT or designee. The plan is available for review by all employees on Blackboard.

Policy on Timely Warnings and Emergency Notifications

I. Policy

This Policy provides information about when a timely warning and/or an emergency notification will be issued by The College of Saint Rose (“Saint Rose”).

II. Definitions

A. Clery Crime – A crime that must be reported under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. These crimes are: murder/non-negligent manslaughter, manslaughter by negligence, rape, fondling, incest, statutory rape, robbery, aggravated assault, burglary, motor vehicle theft, arson, a hate crime (consisting of theft, simple assault, intimidation, or criminal mischief), domestic violence, dating violence, and/or stalking.

B. Emergency Notification – A notice to the Saint Rose community that there is a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees on or near the campus. Emergency Notifications may be sent to a targeted portion of the Saint Rose community that is at risk. Emergency notifications will be issued as soon as possible and without delay unless doing so would compromise efforts to assist a victim or respond to the emergency.

C. Timely Warning – A warning to the Saint Rose community that a Clery Crime was reported and there is a potentially serious or continuing threat to students and/or employees on or near the campus.

III. Issuing Emergency Notifications

A. When there is an emergency situation that is or could be perceived as an imminent threat to the Saint Rose campus and/or community, that information should be reported to Security immediately. The Saint Rose Director of Safety and Security (“Security Director”), or the ranking Security Officer in charge, will confirm the existence and scope of the emergency.

B. If the emergency is confirmed and there is an imminent threat to the Saint Rose campus and/or community, the Security Director, or the ranking Security Officer in charge, has the authority to issue Emergency Notifications without delay and taking into account the safety of the community to determine the content of the notification. This may be done without consulting with other members of the Saint Rose community. However, the Security Director or designee shall notify the Chief of Staff, Vice President for Student Affairs, Vice President for Finance and Administration, and General Counsel as soon as practical.

Saint Rose’s Fire Safety Report is published on an annual basis in this Annual Security Report. In accordance with the Disclosure of Fire Safety Standards and Measures requirement in the Higher Education Opportunity Act, the Fire Safety Report includes:

A. Annual statistics;
B. A description of each on-campus student housing facilities fire safety system, including the sprinkler fire system;
C. The number of regular, mandatory, supervised fire drills;
D. Policies or rules on portable electrical appliances, smoking, open flames, procedures for evaluation, policies regarding fire safety education and training programs, provided to students, faculty, and staff; and

**Fire Drills:**
The College performs a minimum of four fire drills per year in all student residences as required by the NYS Uniform Fire Prevention and Building Code and by the NYS Education Department, subject to the following schedule each year: (1) at least one between September first and December first; (2) in buildings where summer sessions are conducted, one shall be held during the first week of such summer session; (3) at least one shall be through use of the fire escapes on buildings where fire escapes are provided; and (4) at least one during the hours after sunset and before sunrise. The College performs a minimum of three fire drills per year in all non-residential buildings, subject to the following schedule each year: (1) at least one between September first and December first; (2) in buildings where summer sessions are conducted, one shall be held during the first week of such summer session; and (3) at least one shall be through use of the fire escapes on buildings where fire escapes are provided. All drills are supervised with the results tabulated and evaluated for proficiency.

**Reports of Fires:**
All fires, whether known or suspected, should be reported to Security immediately.

**Policies on Items Allowed in Residence Halls:**
- Smoking shall not be permitted in any enclosed place, including private residential space within college housing. Smoking shall also not be permitted in the seating areas of outdoor arenas, stadiums, and amphitheaters, or in bleachers and grandstands used for spectators at sporting and other public events.
- Hot pots, electric coils, sun lamps, air conditioners, heaters, or any heat producing cooking appliances are prohibited. Electric percolators, halogen lamps, lava lamps, and any electrical appliance used to cook food is prohibited in the residence halls. Microwaves are permitted (1 per room) but may not exceed .7 cubic feet and 700 watts and must be UL approved. Refrigerators are permitted (1 per room) but may not exceed 3.1 cubic feet and 115 volts and must be UL approved. The kitchen is the primary place in the building where students are allowed to cook. Any illegal item will be confiscated and disposed of by Residence Life Staff or Security.
- The use of portable space heaters must be approved by the Director of Risk Management and must be of a type approved by an NRTL.
- Open flames such as candles are strictly prohibited.
- Power strips are allowed provided they are plugged directly into outlets and not ganged together.
- College policy requires all occupants (students and employees) to immediately evacuate the building in a fire drill, fire alarm or emergency.
- All new resident students receive fire safety training and training is available to all students on an annual basis.

**Carbon Monoxide Detection:**
The College ensures compliance with National Fire Protection Association (NFPA) 720 on carbon monoxide detection and warning regulation requirements. Carbon monoxide detectors have been installed and inspected and are tested regularly.
Plans for Improvements in Fire Safety:
The College currently uses a Keltron system—a proprietary radio monitoring network system for all fire monitoring and reporting. The current Fire Alarm Master plan is reevaluated and updated as needed. The College will ensure that it performs the required number of fire drills on an annual basis.
SEXUAL HARASSMENT AND MISCONDUCT POLICY

I. Policy

The College of Saint Rose (the “College”) is a private, independent, coeducational institution that reflects the values and heritage of our founders, the Sisters of St. Joseph of Carondelet. The values instilled by our founders include: creating an inclusive community, responding to the needs of the times, educating the whole person, and striving for excellence in all endeavors.

The College is committed to creating and maintaining a safe environment for all of its students and employees. All forms of sexual misconduct offenses and other non-consensual sexual contact by members of the Saint Rose community will not be tolerated by the College and represent a violation of College policy and the law. Violation of the College’s Policy on Sexual Harassment and Misconduct will result in the responsive action, as prescribed under Title IX including investigation of what occurred; action to stop the prohibited conduct; remedial support for the victim of the conduct and, as necessary, for the broader community; and action to reasonably prevent the re-occurrence of the behavior. This may result in possible suspension, dismissal or termination from the College.

This Policy applies regardless of race, color, religion, creed, ethnicity, national origin, gender, age, sexual orientation, gender identity or expression, familial status, veteran status, disability, predisposing genetic characteristics, domestic violence victim status or other basis identified in federal or state law.

II. Scope of Policy

This Policy applies to all concerns and complaints brought by the College’s students against any of the College’s students, employees, and campus visitors. This Policy applies on all property owned by the College, on all property at which the Colleges holds educational programs or activities, and on all airplanes, buses, or other vehicles used to transport the College’s students. This policy applies to all of the College’s educational programs and other activities whether they are held on or off campus.

Employees who have concerns or complaints about sexual harassment should follow the College’s Policy on Non-Discrimination and Unlawful Workplace Harassment for Employees. [http://assets.srrose.edu/Hr/Nondiscrimination.pdf](http://assets.srrose.edu/Hr/Nondiscrimination.pdf)

III. Definitions

A. Affirmative Consent:

Affirmative consent is a knowing, voluntary, and mutual decision among all participants to engage in sexual activity. Consent can be given by words or actions, as long as those words or actions create clear permission regarding willingness to engage in the sexual activity. Silence or lack of
resistance, in and of itself, does not demonstrate consent. The definition of consent does not vary based upon a participant's sex, sexual orientation, gender identity, or gender expression.

a) Consent to any sexual act or prior consensual sexual activity between or with any party does not necessarily constitute consent to any other sexual act.

b) Consent is required regardless of whether the person initiating the act is under the influence of drugs and/or alcohol.

c) Consent may be initially given but withdrawn at any time.

d) Consent cannot be given when a person is incapacitated, which occurs when an individual lacks the ability to knowingly choose to participate in sexual activity. Incapacitation may be caused by the lack of consciousness or being asleep, being involuntarily restrained, or if an individual otherwise cannot consent. Depending on the degree of intoxication, someone who is under the influence of alcohol, drugs, or other intoxicants may be incapacitated and therefore unable to consent.

e) Consent cannot be given when it is the result of any coercion, intimidation, force, or threat of harm.

f) When consent is withdrawn or can no longer be given, sexual activity must stop.

B. Incapacitated Sex:

To have sex with someone whom you know to be, or reasonably should know to be, incapable of making a rational, reasonable decision about a sexual situation is a violation of College’s Code of Conduct and New York State Law. Incapacity to make rational decisions about a sexual decision might result from the taking of a date rape drug, other drugs, alcohol, or as a result of illness. Intoxication on the part of the initiator is not an excuse for the violation of this policy or the law.

C. No Contact Order:

An interim protection measure where the College’s Department of Safety and Security prohibits a student, employee or third party from contacting another student, employee or third party on campus when there is a behavior that represents a risk of violence, threat, pattern, or predation.

D. Order of Protection:

An order of protection is issued by a court to limit the behavior of someone who harms or threatens to harm another person. It is used to address various types of safety issues, including, but not limited to situations involving domestic violence.

E. Relationship Violence:

A pattern of abusive behavior that one person uses to obtain and maintain power and control over their intimate partner. Physical and/or sexual abuse may or may not be present. Coercive control is
always present. Relationship Violence is purposeful and systematic, involves a fixed imbalance of power that has been created over time, and is driven by a sense of entitlement.

**F. Responsible Employees:**

Responsible Employees are mandatory reporters and include all employees (faculty, administrators, and staff) as well as student employees such as Resident Assistants, unless exempted as outlined in the Confidential and Privileged Reporting section of this Policy below. As mandatory reporters, Responsible Employees are required to report all details of an incident of sexual misconduct, including the identity of the victim and the perpetrator, the date and location of the incident and details regarding the incident if known, to the appropriate office for purposes of initiation of an investigation and appropriate action. Responsible Employees are trained to provide information and support and appropriate referral to confidential or private reporting resources. Responsible Employees are also required to provide Clery Act statistical information and/or information for a Timely Warning as warranted. Any failure to report an incident of sexual misconduct may result in disciplinary action being brought against the Responsible Employee, up to and including termination of employment.

**G. Sexual Misconduct:**

a) **Non-Consensual Sexual Contact:** Any intentional sexual touching without effective consent. This includes any contact with the breasts, buttocks, groin, genitals, mouth or other bodily orifice of a person upon another person, as well as the touching of another with any of these body parts, without effective consent; or other intentional contact of a sexual nature without consent or after consent is withdrawn.

b) **Non-Consensual Sexual Intercourse:** Any sexual intercourse or penetration (anal, oral, or vaginal) however slight, with any object or body part, by a person upon another person without effective consent or after consent is withdrawn.

c) **Forced Sexual Intercourse:** Any sexual intercourse (anal, oral or vaginal), by any object or body part, by a person upon another person, that occurs as a result of force. The prohibited force may be physical in nature, or represented by threats, intimidation or coercion. Intercourse obtained by any form of force impacts the free will of the victim and thus removes the opportunity for effective consent.

d) **Sexual Exploitation:** Sexual exploitation occurs when an individual takes non-consensual, unfair, or abusive advantage of another for his/her own advantage or benefit, even though that behavior does not constitute one of the other sexual misconduct offenses. Examples include, but are not limited to:

1. Non-consensual photo-taking, video or audio taping of sexual activity.
2. Stalking with a sexual component. Stalking may take many forms, including persistent calling, texting, or posting on a social networking site as well as physical stalking. When the content of the messages or the nature of the physical stalking is of a sexual nature sexual misconduct has occurred.
3. Voyeurism is a form of sexual exploitation in which one individual engages in secretive observation of another for personal sexual pleasure or engages in non-
consensual photo-taking, video or audio taping of sexual acts. Although the source for the secretive viewing or taping may be unaware of the observation, this behavior is a form of sexual misconduct and violates the integrity of the unaware student.

4. The disrobing or exposure of another person without their consent.

5. Inter-personal or intimate partner violence (relationship violence).

e) **Sexual Harassment:** Sexual harassment is defined under this policy as severe or persistent or pervasive and objectively offensive unwelcome sexual advances, requests for sexual favors, or other verbal or physical conduct or communication of a sexual nature that limits or denies a student’s ability to participate in or benefit from the college’s educational programs or activities, or creates a hostile working environment. when:

1. Submission to the conduct is made either explicitly or implicitly a term or condition of an individual’s academic or other advancement (quid pro quo harassment);
2. Submission to, or rejection of, the conduct is used as the basis for academic decisions affecting the individual (quid pro quo harassment); or
3. Professional or educational performance, productivity, physical security, participation in living arrangements; or extracurricular activities, academic or career opportunities, services or benefits—or of creating an intimidating, hostile, or offensive learning environment.

H. **Sexual Violence:**

The term used to include all sexual harassment, sexual assault, domestic violence, dating violence, and/or stalking.

I. **Stalking:**

Stalking is an unwelcome pursuit. It is an effective tactic of control exerted by one party upon another. When gender is the basis for the stalking behavior, it would be a violation of the Saint Rose Sexual Harassment and Misconduct Policy. It is also a crime that can cause fear without physical injury as it has no real identified beginning and seemingly no end. Stalking often leads to physical contact and is generally on a trajectory toward violence. Stalking often includes the use of technology such as phones, texting, cameras, social networking sites, and email.

J. **Preponderance of the Evidence:**

This standard of evidence means that there must be a determination of whether the alleged sexual misconduct “more likely than not” to have occurred or 51% likely to have occurred.

K. **Title IX Coordinator**

a. The Title IX Coordinator manages the College’s response to reports of gender inequity and discrimination, which includes reports of sexual violence including, but not limited to, sexual assault, sexual harassment, dating violence, domestic violence, and stalking. Informed by current federal and state law and guidance, the Title IX Coordinator aims to ensure that the College’s responses promptly and effectively stop problem behavior, prevent its recurrence, and remedy its effects.
b. The Title IX Coordinator’s responsibilities include:
   1. Overseeing the College’s response to gender discrimination, which includes all forms of sexual violence, to ensure prompt and equitable resolution of all complaints.
   2. Providing a central place to report an incident and overseeing the reporting process.
   3. Providing information about College policies and procedures.
   4. Providing referrals to campus and community resources and victim advocates.
   5. Facilitating accommodations to address safety concerns and to support victims and complainants so that academic and professional pursuits may continue unimpeded.
   6. Collaborating with community partners to assist with a resolution that balances the needs of the individuals involved with those of the larger community.
   7. Keeping records to ensure patterns of behavior are identified.
   8. Overseeing investigations of misconduct to ensure fairness, impartiality, and equity.
   9. Coordinating and providing training, education, and prevention programs for the entire College community.

c. The Title IX Coordinator receives and responds to gender equity and sexual violence concerns. In addition to the Title IX Coordinator, the Deputy Title IX Coordinators have the responsibility for either coordinating the College’s Title IX compliance efforts and/or assisting in sexual misconduct investigations in collaboration with the Title IX Coordinator. Collectively, the Title IX Coordinator, Deputy Title IX Coordinators, and Trained Investigators serve as the College’s Title IX team. The Title IX Team is charged with handling known instances of gender based misconduct or sexual violence with fair and efficient processes that are intended to support the entire College community.

L. Trained Investigators:

The College has identified members of the Administration who have gone through extensive training to serve as investigators of Sexual Misconduct complaints. The investigators receive annual training on issues related to:

a) The four types of cases: domestic violence, dating violence, sexual assault, and stalking, as well as other forms of sexual misconduct as outlined in this policy.

b) How to conduct an investigation “that protects the safety of victims and promotes accountability”.

c) How to conduct an investigation (hearing) “process that protects the safety of the victim and promotes accountability”.

M. Verbal Harassment:

Verbal Harassment, without accompanying physical contact, is not sexual assault, but may fit the criteria for sexual harassment. Sexual harassment is also prohibited by the College’s Code of Conduct.

IV. Information and Resources for Victims of Sexual Violence

A. If you are the victim of sexual violence:

Get to a safe place - a friend’s house or any place where people can give you emotional support and physical care. Call the Rape Crisis Hot Line.

Do not clean up. It may be difficult to keep from cleaning yourself up, but if you do you may destroy evidence that could be useful should you decide to report the assault to the police. Don’t wash up, douche, change clothes, eat, brush your teeth, go to the bathroom or brush your hair. Even if you are not sure about reporting the assault, it makes sense to preserve the option of reporting until you make a final decision.

Seek medical help immediately for the treatment of any injuries and for tests to check the possibility of pregnancy or sexually transmitted diseases. If you do plan to report the incident to authorities, there is an additional reason to seek medical attention. Medical evidence can be collected. Don’t douche, bathe, shower or change your clothes before seeking medical attention.

Report the incident to a campus counselor or victim advocate if you feel comfortable doing so.

a. Seek counseling, whether or not you decide to report the crime or participate in legal action. Professional counseling is available through the Counseling and Psychological Services Center at The College of Saint Rose. Counseling can be beneficial as you work through your reaction to sexual misconduct.
b. You may also choose to file a report with campus security, the Albany Police Department, or the NYS Police. This is your decision. (See “Procedures for Dealing with Sexual Offenses” Section).

c. If you wish, file a complaint with the Student Conduct Office, if the accused person is part of The College of Saint Rose community. An investigation for appropriate disciplinary action under the College’s prohibition against sexual misconduct will occur with the Student Conduct Office.

d. Tell your story soon to avoid forgetting details. Alternatively, write out the details for yourself or use a tape recorder.

e. Take whatever steps are necessary to work through the incident/assault. This might include talking to your partner, friend or counselor about your feelings. Resume your normal routine as much as possible.

f. Go with your instincts. Whatever you decide to do is a decision you must feel comfortable with. Your goal is to survive and escape safely. You will react to the crime in the way that makes the most sense to you at the time.

B. Students’ Bill of Rights:

All students have the right to:

a. Make a report to local law enforcement and/or state police;

b. Have disclosures of domestic violence, dating violence, stalking, and sexual assault treated seriously;

c. Make a decision about whether or not to disclose a crime or violation and participate in the judicial or conduct process and/or criminal justice process free from pressure by the institution;

d. Participate in a process that is fair, impartial, and provides adequate notice and a meaningful opportunity to be heard;

e. Be treated with dignity and to receive from the institution courteous, fair, and respectful health care and counseling services, where available;

f. Be free from any suggestion that the reporting individual is at fault when these crimes and violations are committed, or should have acted in a different manner to avoid such crimes or violations;

g. Describe the incident to as few institution representatives as practicable and not be required to unnecessarily repeat a description of the incident;

h. Be protected from retaliation by the institution, any student, the accused and/or the respondent, and/or their friends, family and acquaintances within the jurisdiction of the institution;

i. Access to at least one level of appeal of a determination;
j. Be accompanied by an advisor of choice who may assist and advise a reporting individual, accused, or respondent throughout the judicial or conduct process including during all meetings and hearings related to such process;

k. Exercise civil rights and practice of religion without interference by the investigative, criminal justice, or judicial or conduct process of the institution.

C. Ways to Protect Yourself:

There are some practical steps you can take that may decrease the risk of sexual assault.

a. Express your expectations and limits clearly before you get into a sexual situation.

b. Limit alcohol and drug use. They make it more difficult for you to be in control. Never ride with someone who has used alcohol or drugs.

c. Avoid meeting in secluded places and walking alone. If you are concerned, ask campus security to escort you.

d. Try to be aware of attitudes that your date expresses concerning women or men: hostility, unrealistic views of women or men and/or viewing people as "sex objects."

e. Use assertive language such as, "I feel uncomfortable when you don’t listen to me or when you touch me like that."

f. Scream "fire" (rather than "rape" or "help"), if you need assistance.

g. Be alert to what is happening around you.

D. To reduce your risk for being accused of sexual misconduct:

a. Clearly communicate your intentions to your sexual partner and give them a chance to clearly relate their intentions to you.

b. Understand and respect personal boundaries.

c. DON’T MAKE ASSUMPTIONS about consent; about someone’s sexual availability; about whether they are attracted to you; about how far you can go or about whether they are physically and/or mentally able to consent. If there are any questions or ambiguity then you DO NOT have consent.

d. Mixed messages from your partner are a clear indication that you should stop, defuse any sexual tension and communicate better. You may be misreading them. They may not have figured out how far they want to go with you yet. You must respect the timeline for sexual behaviors with which they are comfortable.
e. Don’t take advantage of someone’s drunkenness or drugged state, even if they did it to themselves.

f. Realize that your potential partner could be intimidated by you, or fearful. You may have a power advantage simply because of your gender or size. Don’t abuse that power.

g. Understand that consent to some form of sexual behavior does not automatically imply consent to any other forms of sexual behavior.

h. Silence and passivity cannot be interpreted as an indication of consent. Read your potential partner carefully, paying attention to verbal and non-verbal communication and body language.

**A. Filing an Institutional Complaint:**

- a. Once the College is in receipt of a complaint, the College will initiate an investigation in accordance with this Policy. Every effort will be made to maintain the privacy of the individuals involved in a complaint under this Policy and will only be shared with others who need to know in order to investigate a complaint and/or seek a resolution.

- b. Students who wish to file an internal complaint under this Policy should contact one of the following:
c. Student Reports to Responsible Employees – Responsible Employees are mandatory reporters by law and policy. Accordingly, reports made to Responsible Employees will be relayed to the College’s Title IX Coordinator who will initiate an investigation by the College in accordance with this Policy. Even if a student does not want the College to initiate an investigation, once it is reported to a Responsible Employee, the College, through the Title IX Coordinator, will weigh any request for confidentiality against the College’s obligations to provide a safe, non-discriminatory environment for all members of the College’s campus and community.

d. Privileged and Confidential Reporting – Either as an alternative to the reporting options listed above or in lieu of reporting sexual misconduct to the individuals or offices listed above, students may make privileged and confidential reports of sexual misconduct to certain health or mental health providers or pastoral counselors. While criminal complaints, institutional complaints, and reports to Responsible Employees likely will result in the initiation of an investigation, reports to health or mental health providers or to certain pastoral counselors are privileged and will remain confidential so long as the student filing the report does not represent a threat to his or her self or to other, or there is a continuing threat to the health and safety of the College community. (see Page 61 to 62 for list of confidential resources)

e. Anonymous Reporting - Anonymously disclose a crime or violation to the Safety and Security through the anonymous tip line (518) 454-5275 or online form, https://onlineforms.strose.edu/anonymous-report/submit. The College may have a duty to investigate anonymous disclosures to the extent possible, based on the information disclosed.

B. Protection and Accommodations for All Involved Parties:

Individuals reporting sexual misconduct and individuals accused of or responding to allegations of sexual misconduct are afforded the following protections and accommodations:

a. When the accused or respondent is a student, to have the College issue a "no contact order" consistent with the College’s policies and procedures, whereby continued intentional contact with the protected person would be a violation of College policy and result in additional conduct charges. If the accused and a protected individual observe each other in a public place, it shall be the responsibility of the accused to leave the area immediately and
without directly contacting the protected person. Both the accused and the protected person may request a prompt review of the need for and terms of a No Contact Order, consistent with College policies and procedures, including potential modification. The requesting party may submit evidence in support of their request. The College may establish an appropriate schedule for the accused to access applicable institution buildings and property at a time when such buildings and property are not being accessed by the protected person.

b. To be assisted by the College’s security office in obtaining an order of protection or, if outside of New York state, an equivalent protective or restraining order;

c. To receive a copy of the order of protection or equivalent when received by the College and have an opportunity to meet or speak with a College official who can explain the order and answer questions about it, including information from the order about the accused's responsibility to stay away from the protected person(s).

d. To an explanation of the consequences for violating these orders, including but not limited to arrest, additional conduct charges, and interim suspension;

e. To receive assistance from campus security in effecting an arrest when an individual violates an order of protection or, if campus security does not possess arresting powers, then to call on and assist local law enforcement in effecting an arrest for violating such an order, provided that nothing in this article shall limit current law enforcement jurisdiction and procedures.

f. When the accused is a student and presents a continuing threat to the health and safety of the community, to subject the accused to interim suspension pending the outcome of a conduct process. Parties may request a prompt review, reasonable under the circumstances, of the need for and terms of an interim suspension, including potential modification, in accordance with procedures set forth in Student Responsibility and Social Conduct, and shall be allowed to submit evidence in support of their request;

g. When the accused is not a student but is a member of the College's community and presents a continuing threat to the health and safety of the community, to subject the accused to interim measures in accordance with applicable union contracts, employee handbooks, and rules and policies of the College;

h. To obtain reasonable and available interim measures and accommodations that effect a change in academic, housing, employment, transportation, immigration or visa assistance or other applicable arrangements in order to help ensure safety, prevent retaliation and avoid an ongoing hostile environment, consistent with the College's policies and procedures. Parties may request and consistent with the institution's policies and procedures, be afforded a prompt review of the need for and terms of any interim measure and accommodation that directly affects them, and shall be allowed to submit evidence in support of their request.

C. Initial Remedial Actions:
a. The College will implement initial remedial, responsive and/or protective actions upon notice of alleged harassment, misconduct, or retaliation. Such actions could include but are not limited to: no contact orders, providing counseling and/or medical services, academic support, living arrangement adjustments, transportation accommodations, visa and immigration assistance, student financial aid counseling, providing a campus escort, academic or work schedule and assignment accommodations, safety planning, referral to campus and community support resources.

b. The College will take additional prompt remedial and/or disciplinary action with respect to any member of the community, guest or visitor upon a finding that they have engaged in harassment, misconduct or retaliation.

c. The College will maintain as confidential any accommodations or protective measures, provided confidentiality does not impair the College’s ability to provide the accommodations or protective measures.

D. Immunity from Campus Conduct Process:

The College strongly encourages the reporting of incidents of sexual misconduct. The health and safety of every student at the Institution is of utmost importance. The College of Saint Rose recognizes that students who have been drinking and/or using drugs (whether such use is voluntary or involuntary) at the time that violence, including but not limited to domestic violence, dating violence, stalking, or sexual assault occurs may be hesitant to report such incidents due to fear of potential consequences for their own conduct. The College strongly encourages students to report domestic violence, dating violence, stalking, or sexual assault to institution officials. A bystander acting in good faith or a reporting individual acting in good faith that discloses any incident of domestic violence, dating violence, stalking, or sexual assault to Institution's officials or law enforcement will not be subject to the College’s code of conduct action for violations of alcohol and/or drug use policies occurring at or near the time of the commission of the domestic violence, dating violence, stalking, or sexual assault.

E. Handling Reports of Sexual Misconduct:

a. Reports should be filed as soon as practicable after an incident of alleged sexual misconduct. The complainant is encouraged to provide as much of the following information as possible:
   1. the name of the person or persons allegedly responsible for the action; if a College employee the department and position of said person(s); if a student the address of that person, if known.
   2. a description of the incident(s), including the date(s), location(s), and the presence of any witnesses;
   3. the alleged effect of the incident(s) on the complainant's position, academic standing or other conditions of enrollment (student status);
   4. the names of other individuals who might have been subject to the same or similar action;
   5. the steps the complainant has taken to try to stop the behavior; and
   6. any other information the complainant believes to be relevant to the complaint.
b. Investigation Process:

1. The Title IX Coordinator is responsible for ensuring that an impartial investigation begins within a reasonable time after a complaint has been filed. The College of Saint Rose attempts to complete investigations within sixty business days, which excludes weekends and holidays. In certain circumstances, the investigation time frames may need to be extended and the Title IX Coordinator has full authority to extend or modify all time frames set forth in this Policy. In such instances, all parties to the complaint will be notified.

2. Upon receipt of a complaint, the Title IX Coordinator will open a formal case file and assign one of the Trained Investigators who will direct the investigation and confer with the Title IX Coordinator on interim accommodations for the alleged victim, or other necessary remedial short-term actions.

   In most cases, two of the Trained Investigators conduct the investigation. However, the Trained Investigators might work cooperatively with another designated employee or individual external to the College, as determined by the Title IX Coordinator. Throughout the investigation, at least two College employees shall attend all interviews with the complainant, respondent and witnesses so that information obtained during the interviews can be corroborated. In certain cases, the College may appoint a third party to conduct the investigation. Witnesses will be strongly encouraged not to disclose the fact that they have been interviewed or the nature of the inquiry to others in order to maintain the integrity of the investigation.

c. Preliminary Review: The Trained Investigators will take the initial following steps:

   1. Determine the identity and contact information of the complainant (whether that is the alleged victim, the individual who filed a College Incident Report, or a College representative).
   2. In coordination with the campus Title IX Coordinator, initiate any necessary remedial actions.
   3. Meet with the complainant to obtain details of the incident and provide information regarding resources, academic accommodations, and interim measures that might be available.
   4. Identify the policies allegedly violated and other key issues (e.g. power differential, alcohol/drug involvement).
   5. Conduct a preliminary investigation to determine if there is reasonable cause to charge the accused individual, and what policy violations should be included as part of the complaint.
   6. If there is insufficient evidence to support reasonable cause, the complaint should be closed with no further action. If there is sufficient evidence to support reasonable cause, the investigation will proceed to step e) below.

d. Full Investigation: Upon determining with the Title IX Coordinator that there is sufficient evidence for a full investigation, the Trained Investigators shall:
i. Prepare the notice of charges and provide a copy to the complainant and respondent.

ii. Commence a thorough, reliable and impartial investigation by developing a strategic investigation plan in consultation with the Title IX Coordinator, including a witness list, evidence list, intended timeframe, and order of interviews for all witnesses including the complainant and the respondent.

iii. Complete the investigation promptly, and without unreasonable deviation from the intended timeline.

iv. At the conclusion of the investigation, draft and submit a detailed written report which includes the following components:
   i. A summary of the complaint;
   ii. A summary of the response from the respondent;
   iii. A summary of the statements and evidence obtained during the investigation;
   iv. A recommendation on whether a violation of this Policy occurred based on a Preponderance of the Evidence standard and an explanation to support the finding;
   v. If the recommendation is that the Policy was violated, the recommendation must include a statement about the severity of the violation;
   vi. A recommendation as to the disciplinary action(s) to be taken, if there was a Policy violation.

e. Decision Process:
1. If the decision is that the respondent is found not responsible for the charges filed, the Trained Investigators share that outcome with both the complainant and the respondent without significant delay between each party’s notification. Upon notification, either party has the right to appeal in accordance with the Appeal Process section of this Policy.

2. If the Trained Investigators find that the respondent violated this Policy, the process is as follows:
   i. If the respondent is a student:
      • The Trained Investigators will inform the complainant and respondent of the investigation outcome within five (5) business days of the determination and without significant delay between each party’s notification.
        • Notification will be made in writing and may be delivered by one or more of the following methods:
          ▪ In person.
          ▪ Mailed to the local or permanent address of the parties as indicated in official College records.
          ▪ Emailed to the parties’ College-issued email account.
        • Once mailed, emailed and/or received in-person, notice will be presumptively delivered.
The notification will specify:

- The finding on each alleged Policy violation.
- Any possible sanctions that may result which the College is permitted to share according to state or federal law.
- The rationale supporting the essential findings to the extent the College is permitted to share that information under state or federal law.
- The opportunity to write an impact statement explaining how the possible sanctions may affect each party and the date which the impact statements are due.

The final decision will be sent by the methods outlined previously and will be sent without a significant delay between each party’s notification. This will include:

- The finding on each alleged policy violation.
- Any changes that occurred prior to finalization.
- Sanction(s) to be applied.
- Any appeal options that are available.

Transcript Notation

- If the respondent is found responsible for a crime of violence, as defined by the Clery Act, a notation will be made on the student’s transcript indicating that the student has been "suspended after a finding of responsibility for a code of conduct violation" or "expelled after a finding of responsibility for a code of conduct violation."
- If the respondent withdraws from the College while such conduct charges are pending, and declines to complete the disciplinary process, the College shall make a notation on his/her student transcript that the student "withdrew with conduct charges pending." If the finding of responsibility is vacated, the notation will be removed from the student’s transcript.

ii. If the respondent is an employee (faculty, administrator, or staff):

- The investigator will share the findings with the complainant and update the complainant on the status of the investigation and the outcome. The complainant will also have an opportunity to submit an impact statement before sanctions are determined.

- The investigator will determine the appropriate sanctions in conjunction with the Title IX Coordinator and the Associate Vice President for Human Resources. The investigator will present the findings and sanction to the respondent.
• If the sanction is termination of the respondent’s employment, the College will follow the applicable employee handbook or union contract.

• The complainant may appeal the finding and/or sanctions by following the Appeal Process section of this Policy. The respondent may file a grievance in accordance with the applicable employee handbook or union contract.

iii. If the respondent is a third party:

• The investigator will share the findings with the complainant and update the complainant on the status of the investigation and the outcome.

• The investigator will determine the appropriate sanctions in conjunction with the Title IX Coordinator and the Associate Vice President for Human Resources. The investigation will present the findings and sanction to the respondent. The sanctions may include a permanent no-contact order and barred from the College’s campus, including any future employment and or educational opportunities.

• If the respondent is employed by a contractor on campus, the College may require the contractor to terminate the respondent’s employment in order to continue the contract.

• The complainant may appeal the finding and/or sanctions by following the Appeal Process section of this Policy.

3. Appeal Process: Complainants and/or respondents wishing to appeal decisions made during the handling of complaints under this Policy may submit a written petition to the Student Conduct Office (SCO) within two days of receipt of the decision. The SCO will share the appeal with the other party who may also wish to file a response. The SCO will draft a response memorandum (also shared with all parties). All appeals and responses are then forwarded to the Appeals Hearing Board for initial review to determine if the appeal meets one or more of the following grounds for appeal and is timely:

i. A procedural error occurred that significantly impacted the outcome of the hearing

ii. To consider new evidence, unavailable during the original hearing or investigation, that could substantially impact the original finding or sanction. A summary of this new evidence and its potential impact must be included;

iii. The sanctions imposed are substantially disproportionate to the severity of the violation.

If the Appeals Hearing Board finds that the appeal is not timely or substantively
eligible, the original finding and sanction will stand and the decision is final. If the appeal has standing, the documentation from the investigation is forwarded to the Appeals Hearing Board for consideration. The party requesting appeal must show error as the original finding and sanction are presumed to have been decided reasonably and appropriately.

**F. Privacy:**

a. All inquiries, complaints and investigations are treated with respect and attention to the privacy of the complainant. Information is revealed strictly on a need-to-know basis. Although the identities of the complainant and respondent are usually revealed to the respondent and witnesses, the College prohibits retaliation of any form toward any party.

b. A copy of the investigation report and the final decision is included in the student’s or employee’s file only if the investigation concludes that the respondent engaged in prohibited conduct.

c. All information pertaining to a harassment complaint or investigation is maintained by the Title IX Coordinator and the Associate Vice President for Human Resources in secure files. These secure files will be kept separate from all other human resources or student files maintained by the College, except when the investigation concludes that the complaint was reckless or frivolous.

d. Where the respondent is found not responsible for the alleged violation(s), the investigation should be closed. When facts obtained in the investigation do not support the allegation, the investigation will be closed. If subsequently there is additional information discovered related to the allegation the investigation will be re-opened.

e. The College prohibits retaliation in any form for complainants and witnesses.

**VII. Non-Retaliation**

Retaliation against the individual who initiates a sexual misconduct complaint, participates in an investigation, or pursues legal action, or any witness is prohibited. This includes behavior on the part of the respondent or other related persons, including acquaintances, friends, and family members. Although independent action will be taken against anyone engaging in retaliation for making a report of sexual misconduct, the respondent is responsible for discouraging such actions and will also be held responsible to the extent of his/her involvement in the retaliation.
**VIII. Active Bystander**

Active Bystanders are individuals who decide to intervene when they observe a situation or see actions that might be harassment or sexual violence.

**Some simple steps to becoming an Active Bystander:**

- **Notice the situation:** Be aware of your surroundings.
- **Interpret it as a problem:** Do I recognize that someone needs help?
- **Feel responsible to act:** See yourself as being part of the solution to help.
- **Know what to do:** Educate yourself on what to do.
- **Intervene safely:** Take action but be sure to keep yourself safe.

**How to Intervene Safely using the three D’s of Bystander Intervention:**

- **Direct** – Directly intervening, in the moment, to prevent a problem situation from happening
- **Delegate** – Seeking help from another individual, often someone who is authorized to represent others, such as a police officer or campus official.
- **Distract** – Interrupting the situation without directly confronting the offender.

**Other options:**

- Call the police (911) or Campus Security 24/7: (518) 454-5187 for support.
- Or call the National Sexual Assault Hotline at 1 (800) 656.HOPE.

**IX. Education**

The College offers a number of programs over the course of the academic year, addressing sexual assault, domestic/dating violence, stalking, and related topics, including bystander intervention strategies. A specific program is presented to all new incoming students during orientation, in addition to the required online sexual assault prevention and alcohol and substance abuse prevention education courses. Further programming is offered by various offices and student organizations including residence life, the counseling center, and campus safety and security. Pursuant to federal law, students and employees will be educated and updated about security procedures, personal safety, crime prevention and sexual assault, domestic/dating violence, and stalking in all ways that are necessary and appropriate to alert the College community. This may include: posting appropriate flyers, community tabling, mass e-mail messages, placing articles in the student newspaper, social media messaging, classroom announcements, in-classroom presentation, and emergency meetings.
