### Five Key Things in Revival

*Key #1*

*Key #2*

*Key #3*

*Key #4*

*Key #5*

Unknown to many, God has graciously given the answer to our searching question for life, its fullness, its focus, and its future! This answer is found in the Word of God!

One writer well said, we should be throwing people God's Answer in His Word! But, instead, with a drowning world all around us . . .

- our efforts are to warm the water in which they're drowning so it's more comfortable!
- we want to teach them better floating techniques so we give them the 7 steps, 4 ways, 5 reasons they can float better!
- we want to help them manage life in the water, where they're drowning, because we've lost the moral courage to make them uncomfortable and tell them they're drowning, and the moral courage to call openly to them the lifesaving message of God's Truth and Grace through faith in Jesus!

Our world, our culture, our city — all are in desperate need of answers! Those answers are at the heart of *REVIVAL!*
