"Help on accessorizing a mint/sage dress for event. I'm not sure what colors I should use with it such as necklace and I will need a shawl/scarf to cover shoulders in between events. I didn't know if I should go with my 'black' which would be light navy or if that would be to much. "

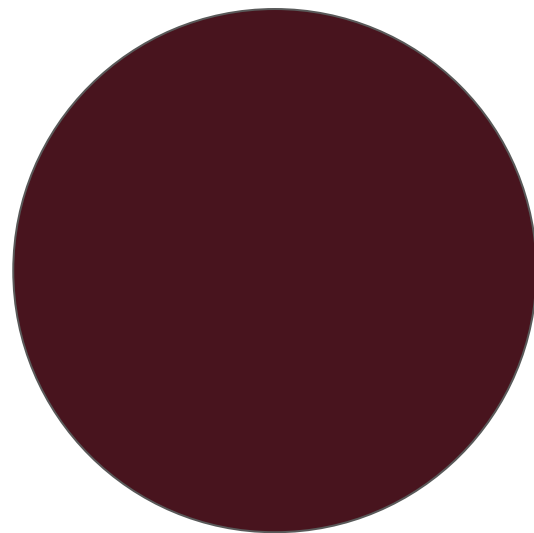

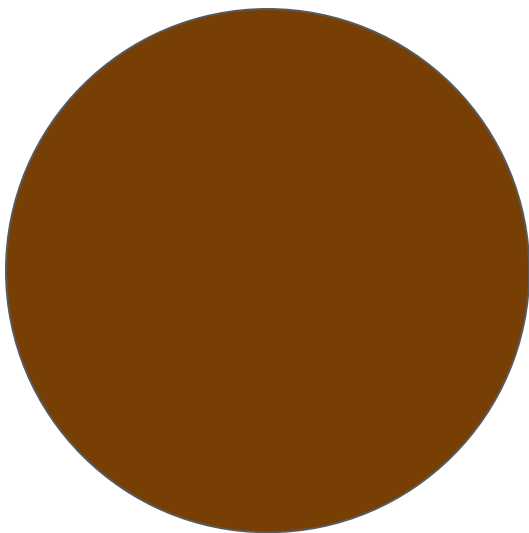

"Help me understand how to use my color fan."

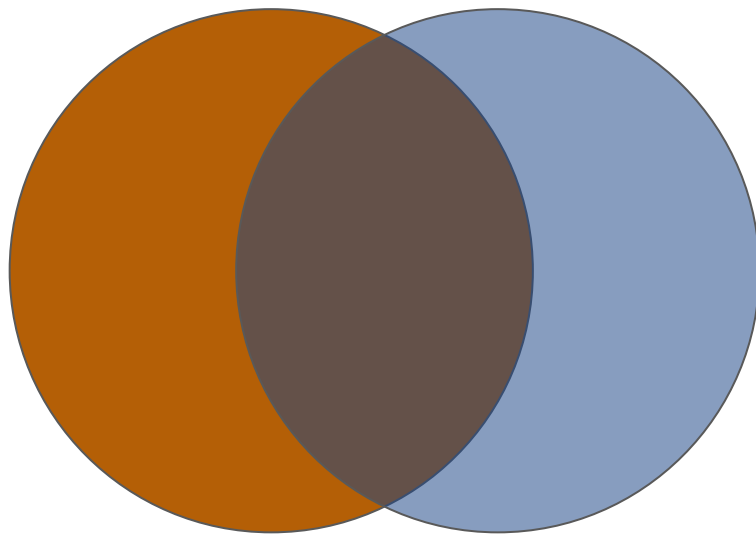

Warm Brown vs. Cool Brown

"I am wondering about the black shoes and black bottoms. Black doesn't appear in your colors that I can see. If you can use black for shoes and bottoms can I assume that I also can also use black for bottoms and shoes? (Black is in my sister season of tinted winter.) I have a number of black bottoms and black shoes and so this would be nice for me. "

"if everyone can wear black mascara or should some seasons wear brown"

"I would like to know how to use your sister season colors in your wardrobe"
