

At-A-Glance

2017 Subaru BRZ

- Rear-wheel-drive 2+2 sports car focuses on low center of gravity, low vehicle weight, and precision handling.
- High-performance 2.0-liter, Subaru BOXER engine.

New for 2017 highlighted in bold

- Subaru-developed vehicle-specific platform.
- BRZ has one of the lowest centers of gravity of any production car in the world at 18.1 in.
- 2+2 seating with enough trunk and interior room to transport four tires and tools for track driving.
- FA-Series 2.0-liter Subaru Boxer engine features “square” configuration (bore and stroke dimensions identical) for high-revving performance; double overhead camshafts and dual Active Valve Control System (DAVCS); fuel injection system combines direct injection and port injection technologies; very high compression ratio; high engine output of 205-hp.
- Choice of 6-speed manual and automatic transmissions; optional automatic has steering wheel paddle shifters, **Track** mode, Snow mode and downshift blipping control.
- Torsen® limited-slip differential.
- Double-wishbone rear suspension.
- Electric power steering.
- 4-wheel vented disc brakes.
- Vehicle Stability Control (VSC) and Traction Control System (TCS) with 5 modes, including **Track** mode and TCS Off for track driving.
- **17-in. x 7-in. aluminum alloy wheels** with 215/45 R17 summer performance tires.
- Aluminum hood.
- Premium and Limited trim levels.
- Ring-shaped Reinforcement Frame body structure provides outstanding occupant protection; 3-point seatbelts for all seating

positions, front seatbelt pretensioners and force limiters; Subaru Advanced Frontal Airbag System; dual-stage deployment driver and front passenger airbags; front seat side pelvis/torso airbags and side-curtain airbags (SRS).

- Whiplash protection front seats.
