- Subaru Symmetrical All-Wheel Drive standard across all trim levels
- Sport trim offered exclusively on Subaru Crosstrek Hybrid

JULY 9, 2027, Camden, N.J., – Subaru of America, Inc. today announced pricing for the 2027 Subaru Crosstrek and Crosstrek Hybrid SUVs. Starting at \$26,995 MSRP, the award-winning SUV lineup delivers the same impressive capability, range, and convenience, with no increase in price from the previous model year.

“The Crosstrek has earned its place as one of Subaru’s most popular vehicles with its capability, safety, versatility — and affordability,” said Jeff Walters, President and COO of Subaru of America, Inc. “We’re proud to offer the 2027 Subaru Crosstrek at the same \$26,995 MSRP starting price as last year, reinforcing our commitment to providing exceptional value.”

The 2027 Subaru Crosstrek is available in Base, Premium, Sport Hybrid, Limited, Limited Hybrid, and Wilderness trim levels. Last year’s gas-only Crosstrek Sport trim level has been discontinued. New for 2027, Ignition Red replaces Pure Red and Lithium Red Pearl on the Crosstrek Limited Hybrid, while Tidepool Teal Pearl premium paint replaces Alpine Green for the new model year.

All 2027 Subaru Crosstrek models are powered by a SUBARU BOXER® engine paired to a Lineartronic® CVT (Continuously Variable Transmission) and Subaru Symmetrical All-Wheel Drive.

On Base, Premium, Limited, and Wilderness trim levels, the gas-only engine makes 180 horsepower and 178 pound-feet of torque. On Sport Hybrid and Limited Hybrid models, a next-generation Subaru series-parallel hybrid powertrain pairs a 2.5-liter SUBARU BOXER® engine and powerful electric motors to produce 194 horsepower combined and an EPA-estimated range of 630 miles on a single tank of fuel.

Regardless of powertrain, the 2027 Subaru Crosstrek features seating for up to five with up to 23.3 cubic feet of cargo capacity with the rear seatbacks upright. With the rear seats folded, the Crosstrek offers roughly 50 cubic feet of cargo.

Every trim level comes standard with Subaru's award-winning EyeSight® Driver Assist Technology, including pre-collision braking, lane departure warning, lane keep assist, and advanced adaptive cruise control with lane centering. On trim levels with blind-spot detection and rear cross-traffic alert, automatic emergency steering is added to help prevent forward crashes at speeds slower than 50 mph.
