Core Performance Features

- Standard 6-speed manual transmission
- Optional SPT (available on Limited, standard for GT) features 8-speed manual mode and steering wheel paddle shift switches, including Subaru Intelligent Drive (SI-DRIVE) engine performance management system that allows the driver to tailor the vehicle's driving characteristics by choosing from among three selectable modes – “Intelligent,” “Sport” and “Sport Sharp”
- Sport-tuned suspension
- Standard Active Torque Vectoring, an enhancement of the Vehicle Dynamics Control system
- Aluminum hood with integrated scoop to provide fresh air to the intercooler
- Performance exhaust system with dual-outlet stainless steel tips

Symmetrical All-Wheel Drive

- 6-speed manual transmission: Continuous AWD version uses a viscous coupling locking center differential that distributes torque to wheels with the best traction.
- Subaru Performance Transmission (SPT): Variable Torque Distribution (VTD) version uses a planetary gear-type center differential and an electronically controlled hydraulic transfer clutch to manage torque distribution between the front and rear wheels. The system continually optimizes torque distribution in response to driving conditions and input from steering wheel angle, yaw and lateral g-force sensors.
