Camden, N.J. – November 18, 2019 – Subaru of America, Inc. announced today that four Subaru models in their respective segments have earned Residual Value Awards from ALG, the analytics division of TrueCar Inc. and the industry benchmark for projecting future vehicle values and depreciation data.

“We are thrilled that four of our models earned top spots in their segments for the 2020 ALG Residual Value Awards,” said Thomas J. Doll, President and CEO, Subaru of America, Inc.

“Subaru strives to consistently offer reliable vehicles that our customers trust to transport their families safely, while retaining their value for years to come.”

The ALG Residual Value Awards recognize vehicles in 27 segments that are projected to hold the highest percentage of their Manufacturer's Suggested Retail Price (MSRP) after a three-year period. Based on 2020 model year, winners are chosen through a careful analysis of each segment, historical vehicle performance and industry trends, while factoring in quality, production levels relative to demand, pricing and marketing strategies. Earning four awards this year, Subaru has now captured a total of forty-one ALG Residual Value Awards since 2010.
