### Key Facts

- 5-door crossover with raised suspension, 8.7 inches of ground clearance.
- 2.0-liter Subaru BOXER engine and available second-generation Lineartronic® Continuously Variable Transmission (CVT).
- Bold crossover styling with black wheel arch and rocker panel cladding.
- Two different versions of Symmetrical AWD: 5-speed manual transmission features Continuous AWD with a viscous coupling locking center differential that splits torque 50:50 front to rear. Models with the Lineartronic CVT use Active Torque Split AWD with an electronically managed continuously variable transfer clutch that actively manages the power split based on acceleration, deceleration and available traction. Both systems always power all four wheels and will transfer power to the wheels with the best grip.
- Ring-shaped Reinforcement Frame body structure provides outstanding occupant protection; engineered to provide optimal performance in latest crash test regimen. Standard safety features include 3-point seatbelts for all seating positions, front

seatbelt pretensioners and force limiters, Subaru Advanced Airbag System, curtain side air bags and front seat side-impact air bags, driver's knee airbag

- Incline Start Assist can momentarily prevent the vehicle from rolling backward when being driven away from a stop on an incline.
