The problem is that the glossary at the end of each chapter is labeled Key Terms, but it includes a mixture of what I wanted ... Read more Reviewed by Judith Osborn, instructor, Umpqua Community College on 6/23/20 Compared to commercial textbooks, the area and coverage are good. The authors clearly worked diligently to include the most important points in the story needed for an introductory text. The index needs to be more comprehensive, that's for ... Read more Reviewed by David Trowbridge, Associate Professor, Marshall University on 5/19/20 On its face, the text seems to reflect the topics seen in a typical commercial textbook. But when you dig a little deeper the book lacks the narrative and interpretive quality of recent commercial textbooks such as the popular text by ... Read more Reviewed by Chris McGraw, History Director, Central Louisiana Technical Community College on 5/2/20 The text is very comprehensive, and its 32 chapters provide a broad overview of American history from pre-columbian times to the end of Barack Obama's presidency. The chapters are organized both chronologically and thematically. The chapters do not ... Read more Reviewed by Robert Carlock, adjunct instructor, Bowling Green State University on 12/22/19 This text breaks American history into typical chronological and thematic chapters. There are also consistent themes emphasized throughout the chapters, such as women's history, black history, and Mexican-American history. read more Reviewed by Evan Casey, Assistant Professor, Marian University on 12/18/19 This text covers the history of the United States brilliantly. The depth of research and care in the information is well done. Read more Reviewed by Ian Beamish, Assistant Professor, ULL on 11/10/19 The books cover the political narrative relatively thoroughly but skew its attention to England and Europe over other areas of the Atlantic World in the early chapters. The book is weakest in terms of coverage before 1650 and after 1968. Read more Reviewed by J Bates, Assistant Professor, Minnesota State University System on 10/28/19 This textbook does an extraordinary job of providing a comprehensive but still nuanced portrait of U.S. history. I was particularly impressed by the colonial era and the authors' devotion to establishing the complex interplay between Africans... Read more Reviewed by Kevin Rucker, Associate Professor, Metropolitan State University of Denver on 10/24/19 I found that the text largely covers significant historical events and people in a broad overview. Although there is not much depth in the chapters, adding additional readings makes a good overview. Notification... Read more Reviewed by Jeannie Harding, adjunct instructor, James Madison University on 7/8/19 One of the strengths of this text is its extensive. It covers the entire history of the United States, starting with the status of Africa, America and Europe before Columbus. The text hits all the major topics of American history that one can find in a ... Read more Reviewed by Michael Garcia, adjunct professor, Metropolitan State University of Denver on 5/24/19 The text deals with significant historical points, but without great depth. Although the organizational framework/index in the text is limited in content, it serves as an adequate guide for a general survey course, but it will have to be ... Read more Reviewed by Ben Alexander, adjunct associate professor, New York City College of Technology on 4/8/19 Although it is impossible to cover everything, this book does an admirable job of going into detail on important topics. The opening chapters provide a breathtaking panorama of the early origins of human life in the Americas and the global scene... Read more Reviewed by Stuart Tully, Assistant Professor, Nicholls State University on 4/4/19 The book is comprehensive, perhaps to a fault. It covers a wide range of concepts and historical elements, but never goes into too much depth. This kind of surface-level examination of material is suitable for a study-level course, but unless ... read more Reviewed by Daniel Morales, Assistant Professor, James Madison University on 2/13/19 The textbook covers most of the areas of U.S. history, perhaps too much as some points and not enough in others, but generally is extensive in covering political history. It is limited however in a lot of social history and history in the Southwest... read more Reviewed by Jessica Taylor , Assistant Professor, Virginia Tech on 1/10/19 This textbook hits all the main points American investigative class with a particular emphasis on political history. The key concepts show a commitment to all the Greatest Hits no study would be missed (carpetbaggers, Sons of Liberty, the ... Read more Reviewed by Dan Allosso, Assistant Professor, History, Minnesota State (Bemidji State University) on 12/14/18 Like most modern American history textbooks, this text begins before 1492, setting the stage for Iberian and later French, Dutch and English colonization of Americas. As an environmental historian, I think the extent of the indigenous depopulation ... Read more Reviewed by Gwen Tarbox, Professor, Department of English, Western Michigan University on 12/11/18 U.S. History is certainly comprehensive: the task of tracking developments in the United States from pre-colonial times to the second term of President Barack Obama is a daunting one. I think the text can work better in a history course... Read more Reviewed by Beth Fowler, Associate Professor, Wayne State University on 12/1/18 Overall, this is one of the most comprehensive and engaging textbooks I've ever read! The vast majority of events, questions and themes that I introduce in class and want my students to think of were covered, or at least introduced. That way... Read more Reviewed by Brian Leech, Associate Professor, Augustana College on 11/18/18 Periods: Overall good work by the authors. The text does quite well with the pre-European contact period, although I still prefer more attention to North American Indians. The text is not unusual in this respect. It would also be nice if... Read more Reviewed by Kathleen Pannozi, Assistant Professor of Educational Studies, Rhode Island College on 6/19/18 This American history text is certainly comprehensive. In its 32 chapters, all stages of the development of the American nation are addressed. In some cases, there are several chapters of one era. The period 1760-1790 is examined in Chapters 5, 6 ... Read more Reviewed by Arlene Reilly-Sandoval, Associate Professor, Colorado State University-Pueblo on 2/1/18 This text covers Pre-Columbian U.S. to the 21st Century. It is extensive in that it covers not only the great wars or conflicts, but also industrialization, the struggles of indigenous peoples, and the development of a nation. This book... Read more Reviewed by Jonathan Rees, Professor of History, Colorado State University - Pueblo on 2/1/18 It's extensive, but the depth of coverage is uneven. There are far more details about the period before 1945 than the period after 1945. In the previous period, the same years are (rightly) covered by several chapters. In the periods after 1945... read more Reviewed by Morten Bach, associate professor, Ohio University - Zanesville on 2/1/18 The text certainly strives to be comprehensive with train-based chapters moving from the pre-Columbian context to Barack Obama's Term. For the most part, it compares favorably with the commercial text I've used in my American history study... Read more Reviewed by Leah Hagedorn, Professor of History, Tidewater Community College on 8/15/17 This promising textbook would benefit from greater extensive and greater depth. The book is easily searchable. Given the text of community college use, at least twenty percent of community college students have disabilities and ... Read more Reviewed by Matthew Whitlock, adjunct instructor, Tidewater Community College on 8/15/17 The textbook is very comprehensive, covering pre-contact for the 21st century. The authors provide in-depth details in 1052 pages. It would be great to provide some additional primary sources for some of the chapters. Read more Reviewed by Tom Nejely, instructor, Klamath Community College on 6/20/17 I review this text from the point of view of a community college study course if students may or may not be at the college level of writing. This population has certain needs and behaviors that affect the way I'm going to review the text... read more Reviewed by Thomas Woodhouse, instructor, Riverland Community College on 6/20/17 This textbook is comprehensive. It covers events from before 1492 through the final years of President Obama's administration. It looks at social, economic, cultural, political, racial, gender and military history, and it often goes beyond them... Read more Reviewed by John Haymond, adjunct director of history, Riverland Community College on 6/20/17 I was most interested in the parts of this text that dealt with events from the mid-1800s to the First World War, but I still read through sections bracketing this date range. In its goal to cover the entire sweep of American history from ... Read more Reviewed by Kurt Kortenhof, History Director, Saint Paul College on 4/11/17 The American Story text is organized into 32 chapters that adequately present a sketch of American history from pre-contact to 2014. The book is also easy to adapt to the two American history survey structure most colleges and universities follow... Read more Reviewed by Gerd Horten, Professor of History, Concordia University - Portland, Oregon on 2/15/17 The coverage of this textbook is very comprehensive. The 32 chapters are very similar to many other textbooks that are commercially available and they are suitable for two-semester and three-term studies of U.S. history. Especially in... read more Reviewed by David Jamison, Guest Assistant Professor, Miami University - Middletown on 8/21/16 On 1052 pages, U.S. history is nothing if not comprehensive. Maybe comprehensive to a fault. Although it fulfills its duty as a story textbook by including fairly detailed retellings of events (with some exceptions to come), the editors are... Read more Reporting by Matthew Lindaman, Lindaman, Winona State University on 8/21/16 Very comprehensive in scope and coverage. If possible, I'd like to see a few more primary sources. But maybe they could be placed in a supplement, since the current is strong as it is. read more Reviewed by Joe Austin, Associate Professor, University of Wisconsin, Milwaukee on 8/21/16 NOTE: My comments apply only to post-1865 chapters (16-32). I would rate this book's comprehensiveness to be about average or a little better. The chapters previously covering the material before the 1960s (Chapter 29) are more extensive than them ... Read more Reviewed by Charles Young, Associate Professor, Umpqua Community College on 8/21/16 The textbook is quite comprehensive in covering key areas and ideas. For example, I was quite impressed with the well-written and broad details about John Winthrop and the Puritans in Chapter 3 and with The New Nixon, The Domestic ... Read more Reviewed by Caryn Neumann, Associate Professor, Miami University of Ohio on 8/21/16 This book is an acceptable replacement for any American history textbook of a major publisher. The publisher used open source material for images to save costs. The book is not as polished looking as a normal textbook. But the quality of... read more Reviewed by Robert Maloy, Associate Professor, University of Massachusetts Amherst on 1/7/16 The book is impressively comprehensive. Its 1052 pages include 32 chapters beginning with America, Europe and Africa before 1492 and ending with Challenges of the 21st Century. The first eight chapters explore colonial America...
