Course Name	Course Code	Course Material	Required or Recommended	Delivery Method	ISBN/ Product Number	Retail Price	Notes
The information listed under "Course Name" indicates the official name of each respective course. It also offers an abbreviated description of each respective course.	The information listed under "Course Code" indicates the official letter and number code used to identify each respective course.	The information listed under "Course Material" indicates the title of textbooks or the name of products required or recommended for each respective course.	The information included under "Required/Recommended" indicates whether the respective course material is officially required for the respective course or recommended.	The information included under "Delivery Method" indicates how each respective course material is provided to students if the course material is included in tuition under the Inclusive Access Program. If the course material is not included in tuition under the Inclusive Access Program, it is noted under "Delivery Method" as "Not Included in Tuition."	The information listed under "ISBN/Product Number" reflect the identification numbers for the physical versions of each item, if available. For items that do not have a physical version available for purchase, the identification number for the digital item has been provided.	The prices listed under "Retail Price" are prices found at third party vendors for the corresponding textbook/product listed under "ISBN/ Product Number." <u>These prices do not reflect Sullivan Campus Store prices.</u> Most items are included in tuition. Therefore, Sullivan Campus Stores do not carry all textbooks/products for purchase.	The information included under "Notes" indicates additional information related to each respective course material that has been deemed relevant to students, faculty, and/or staff.
