

Dependable Delivery

When you need it now, we're already on the way.

Every day our delivery trucks hit the streets loaded with our reputation – but our successful delivery track record begins before the drivers take off.

Our sales associates take the time to order exactly what you need. Your order is sent to warehouse associates trained to pull your orders accurately, helping to ensure timely deliveries.

Every Summit truck has a GPS system for tracking and rerouting shipments when necessary, making efficiency a daily routine. Our courteous drivers will arrive on time, in uniform, and with a smile.

But that's not all. Your items can be bar coded ahead of time for your convenience in receiving. Plus, you can view proof of delivery documents online at summit.com.

"You are the standard out of the 1,200 vendors that we use. You get us what we need when we need it. It's not just the CSR - your warehouse people pull the right parts, so we have fewer errors. With other vendors, their warehouses are not paying attention. Rarely is there a case when we get the wrong part or wrong quantity from you guys."

Teresa Presley, purchasing supervisor • *Chugach Management Services, Kirtland Air Force Base*
