

CONTENTS

This section contains door knobs, ring pulls and levers. Dimensions given in this section are for actual levers or knobs only. To calculate overall depth from face of door to outside of lever or knob, add 0.625" to shaft length for 900 and 1200 series plates, and 0.500" for all other plates.

Upcharge to shorten knob or lever shaft. Call to confirm projection can be reduced.

UC-1

Any knob, lever or ring pull can be combined with any style or size escutcheon plate.

Wood Handle orders DO NOT qualify for return and are NON-REFUNDABLE.

Sun Valley Bronze uses domestic white oak or teak upon availability. Please contact to confirm availability of teak.
