

CONTENTS

This section contains grip handles, D handles, offset handles and push plates.

Back-to-back and blind mount grip handle orders do NOT qualify for return and are NON-REFUNDABLE.

WARNING:

Do not pre-drill center-to-center on doors with grip handles over 35" in length. Grip handle center-to-centers must be verified when received due to variations in alloy shrinkage.

WARNING:

Do not pre-drill center-to-center on doors with grip handles over 35.000" in length. Grip handle center-to-centers must be verified when received due to variations in alloy shrinkage.

Thru-Bolt

1/4-20 or 5/16-18 bolt

Holes are drilled through the door at specific center-to-center. Typically bolt head is on surface of door. Bolt goes through door and threads into grip handle fastening the grip handle to the door.

Blind Mount (upcharge applies)

1/4 or 5/16 hanger bolt with tapered extension

Holes are drilled in surface of door only (1.000" deep) at specific center-to-center.

Using 3/16 allen wrench turn the hanger bolt clockwise to thread into the door. Once the hanger bolts are securely fastened to the door, place the grip handle on the hanger bolts. 10/32 or 1/4-20 set screw on the side of the grip handle should line up to the center of the tapered shaft on the hanger bolt. The grip handle feet should be flat to the door. Tighten the set screws firmly.

Back-to-Back (upcharge applies)

1/4 or 5/16 post

Posts are attached to grip handle and pass through the door, which has been drilled at specific center-to-centers. Opposing grip handle slides onto posts with feet of both grip handles flat on the door. 10/32 or 1/4-20 set screws on the side of the grip handle are tightened on the post securing both grip handles to the door.

Glass Back-to-Back

GH-900 Series grip handles must have 0.500" or larger base to cover 0.375" hole in glass.

Glass Back-to-Back GH-900 Series with 0.500" or larger base (upcharge applies)

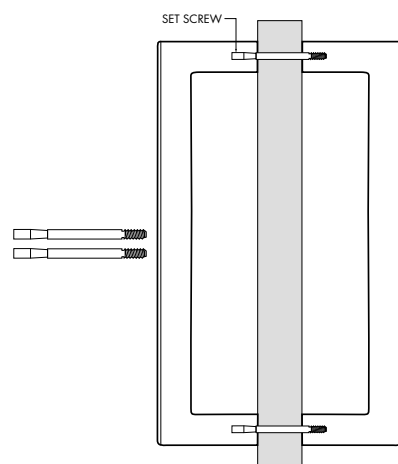

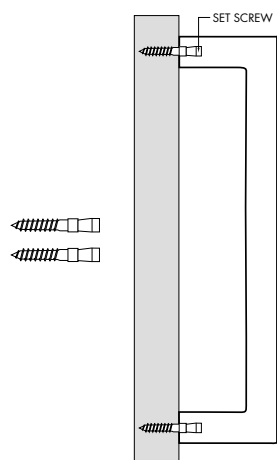

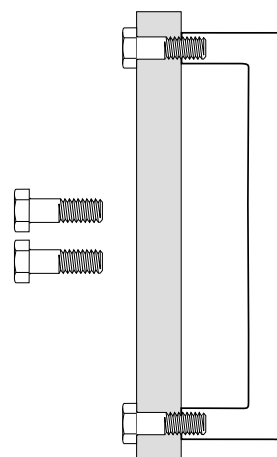

1/4" post x 3/8" OD Grommet/Sleeve

Posts are attached to grip handle and pass through glass door, which has been drilled with 0.375" hole at specific center-to-centers. Opposing grip handle slides onto posts with feet of both grip handles flat on grommet/sleeve shoulder. 1/4-20 set screws on the side of the grip handle are tightened on the post securing both grip handles to glass door.

Glass Back-to-Back (upcharge applies)

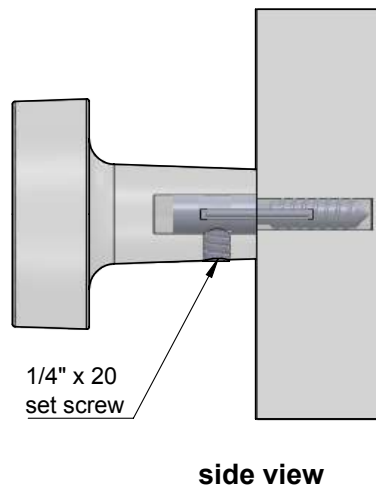

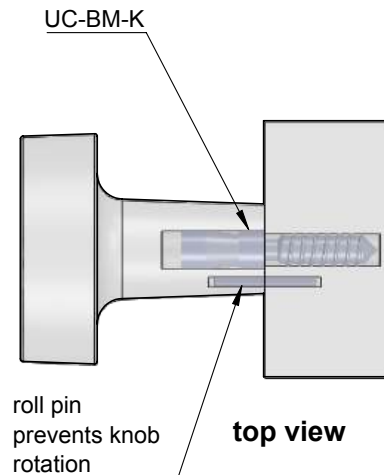

5/16" post x 1/2" OD Grommet/Sleeve

Posts are attached to grip handle and pass through glass door, which has been drilled with 0.500" hole at specific center-to-centers. Opposing grip handle slides onto posts with feet of both grip handles flat on grommet/sleeve shoulder. 1/4-20 set screws on the side of the grip handle are tightened on the post securing both grip handles to glass door.

Mesa push pull plates.

PP-2120	2.250" x 16.000" Mesa push plate.
PP-2120NKC	2.250" x 16.000" Mesa push pull plate w/key cylinder NKC.
PP-2120KC	2.250" x 16.000" Mesa push pull plate w/key cylinder.
PP-2120TPC	2.250" x 16.000" Mesa push pull plate w/turn piece.
PP-2126	2.750" x 22.000" Mesa push plate.
PP-2126NKC	2.750" x 22.000" Mesa push pull plate w/key cylinder NKC.
PP-2126KC	2.750" x 22.000" Mesa push pull plate w/key cylinder.
PP-2126TPC	2.750" x 22.000" Mesa push pull plate w/turn piece.

Direct mill (DM) available mortise and deadlock only. No key cover (NKC).

For pulls add grip handle of choice from pages 2-51.

Accurate 9124ARL mortise roller latch w/bolt

Accurate 9500 deadlock

Ilco mortise cylinder up to and including 1.500"

Ilco mortise cylinder 1.625" and up to 2.000"

Baldwin mortise cylinder 2.250" and up to 2.500"

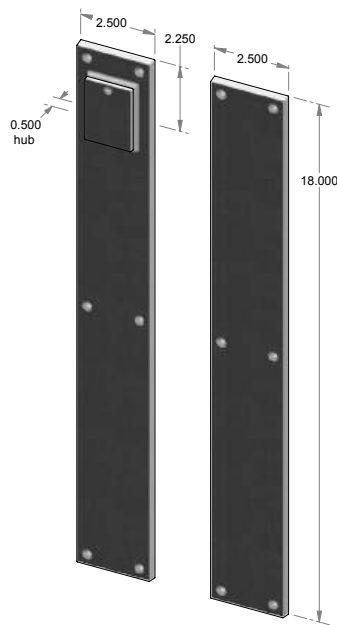

Deadbolt single cylinder
