MILITARY HISTORY/U.S. HISTORY

VOLUME 21 IN THE CAMPAIGNS
AND COMMANDERS SERIES

*Re-assessing this early American war from
an international perspective*

"This study of the War of 1812 will be consulted for years to come for its broad view of the international conflict . . . and for its comparative view of military operations through space and time."—*Military History*

The War of 1812 is etched into American memory with the burning of the Capitol and the White House by British forces, "The Star-Spangled Banner," and the decisive naval battle of New Orleans. Now a respected British military historian offers an international perspective on the conflict to better gauge its significance.

In *The War of 1812 in the Age of Napoleon*, Jeremy Black provides a dramatic account of the war framed within a wider political and economic context than most American historians have previously considered. In his examination of events both diplomatic and military, Black especially focuses on the actions of the British, for whom the conflict was, he argues, a mere distraction from the Napoleonic War in Europe.

For those who think the War of 1812 is a closed book, this volume brims with observations and insights that better situate this "American" war on the international stage.

Jeremy Black is Professor of History at the University of Exeter and a senior fellow at the Center for the Study of America and the West at the Foreign Policy Research Institute in Philadelphia. He is the author of more than seventy books and has lectured extensively around the world.
