## Procedure- Activating the software

**\*\*\*If using imaging software, do not license the software. Gather the image, and deploy it. License the software after all the machines are imaged. DO NOT license the Master Image.\*\*\***

1. If you choose not to restart your computer, in order to license CNCMotion, select the folder: **CNCMotion for proLIGHT 1000 Machinery**

2. If you choose to restart your machine, once you open CNCMotion you will be prompted with the Intelitek Software License screen:

Your license should follow this pattern – PLTW-PLMI-XXXX-XXXX

**\*\*You must select Subscription License\*\***

**\*\*The Subscription License is PLTW-PLM1-N018-0450\*\***

**\*\*If you are having issue with the activation ensure you have downloaded the correct installer for the type of mill you have and the license you are using matches the above pattern.\*\***
