

# Installation Guide for Google Earth

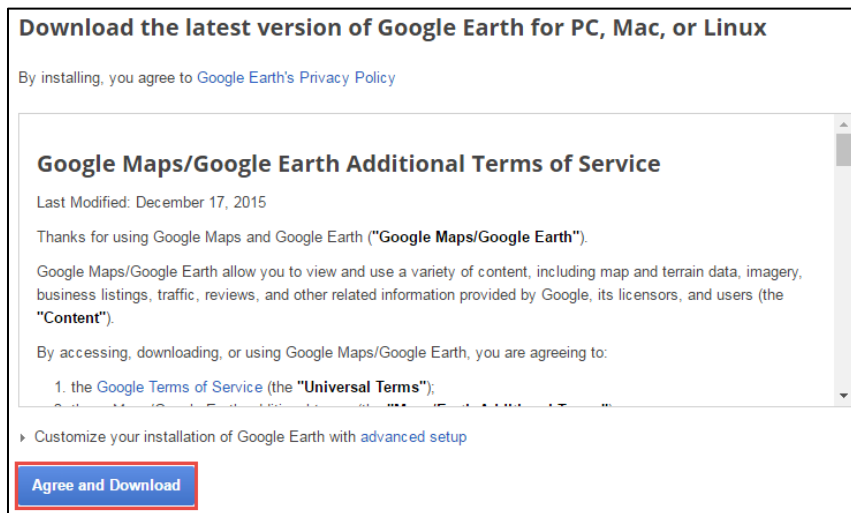

Updated: 3/9/2018

Google Earth can either be ran directly in the Chrome web browser at <https://www.google.com/earth/> or can be downloaded to the desktop by following the directions below.

If teachers choose to use the Chrome browser version of Google Earth, they will need to enable KMZ files to be uploaded. See document here: <https://s3.amazonaws.com/support-downloads.pltw.org/2017-18/Google+Earth/Installation/Google+Earth+kmz+files.pdf>

## Procedure

1. Visit this link: <https://www.google.com/earth/download/ge/agree.html>
2. Click **Agree and Download**

3. Once the file finishes downloading, run it.
4. Let the installer run.
5. Once the installer finishes Google Earth will launch and the installation is complete.
