

# Computer Science for Innovators and Makers software information

Updated: 6/27/2019

Computer Science for Innovators and Makers does not have any software that needs to be installed.

The only requirements for Computer Science for Innovators Makers are proper USB permissions, and access to the Microbit programming website(<https://pxt.microbit.org>). See below for detailed information.

- 
- USB Read/Write permissions for all users.
    - This will allow students to program the MicroBit from the computer.
  - Whitelist the following websites to allow access to the MicroBit programming websites:
    - <https://pxt.microbit.org/>
    - <https://makecode.com>
    - <https://www.pxt.io>
    - <https://pxt.azureedge.net>

Additional documentation and FAQs can be found on MicroBits website:
