### Download NetLogo

Most computers can run NetLogo (see [system requirements](#)). If you would like to run NetLogo on a Chromebook or in a web browser, please see if [NetLogo Web](#) will meet your needs.

Multiple versions of NetLogo can be installed on the same computer; installing a new one doesn't remove the old one.

Version:

More versions [here](#)  
For help using old models with new versions see the [Transition Guide](#).
