

## Wood/Cabinet Manufacturer

***Stretch Wrap Systems installs wrapper with rapid band film system.  
Reduces wrap time by 10 hours a day!! \$70,000 plus savings in labor hours  
yearly!***

***Customer was strapping and wrapping all the loads. Stretch Wrap Systems has eliminated the time consuming manual process of strapping each load. The labor savings each day is in excess of 10 hours! That's a labor savings each year of over \$70,000. Utilizing the rapid banding film and having pre-set wrap patterns for the varying loads gives great flexibility to the process of wrapping pallets. Operators are able to choose the perfect wrap pattern for each pallet they wrap based on different variables from weight, height etc.***

***The roll price at the end of the day means very little when there are much bigger "carrots" sitting right in front of you. Time is where the big money is spent and this is where the big savings can be found. We have a better process and we will prove it onsite in your building!***
