SYMBOL

Your life, your mattress

User Guide & Warranty Information

Symbol Mattresses conform to the Federal Flammability Standard known as 16 CFR Part 1633. Every Symbol FR Mattress is certified to be sold alone (mattress only) or in a set with a certified Symbol FR box spring or foundation. **Please note:** A Symbol FR-Certified mattress may NOT be sold with a box spring or foundation that was not tested and certified for use under that particular Symbol mattress. You may refer to the FR Law Tag on the mattress for information on the specific Symbol box spring or foundation that may be lawfully sold with your new Symbol mattress.

Due to health concerns: stains, burns, and/or abuse of the mattress or Box Spring/Foundation will void this warranty.

Congratulations and Thank You!

You have just purchased a quality sleep product from Symbol Mattress. In order to prolong the life of your bed and be more satisfied with it's overall performance, please remember the following points:

- Body impressions are normal in quality bedding. Impressions indicate that the upholstery layers are conforming to your body's individual contours. These are not structural defects, but normal occurrences in the superior performance of the mattress.
- Impressions are going to be more noticeable on King and Queen sizes.
- To equalize impressions, rotate your mattress end to end regularly every two weeks for the first three months of use and every two months thereafter. This mattress will not need to be turned over.
- If you own a double sided mattress, rotate and flip your mattress once every three months. If your mattress shows signs of body impressions before scheduled rotations, change the schedule so you will always be sleeping on a comfortable surface.
- Use of a matching FR-Certified box spring unit/foundation and a proper frame with center support is required. This warranty will be null and void if the mattress was not used on a box spring or foundation with proper support. Reference Image below:

IMPORTANT: This warranty will be null and void if the mattress is not used on a frame with a proper center support.

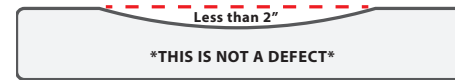

- We recommend a premium quality mattress protector cover be placed on your mattress to act as a barrier against stains to the mattress. Stains, burns, or abuse of the mattress will void the warranty.
- Do not use dry cleaning fluid on your mattress as it will cause damage.
- Do not get your mattress wet. Some of the upholstery materials may compress if wet.
- Do not iron your mattress. This may cause the cover to deteriorate.
