

# Upgrade to Extreme Power with **TRAXXAS Power-UP**

The Traxxas Power-Up™ Program allows you to exchange your current Traxxas speed control, nitro engine, or radio system for a brand new upgraded system at 50% off of the current retail price of the new system. There's no easier, more affordable way to give your model superior performance capability and high speed potential! It's a no-questions-asked deal. No matter what condition your electric, nitro or radio system is in, so long as it's complete, it can be exchanged for the new system at the special price. You may also use the Power-Up program to simply replace a worn or damaged Traxxas speed control, nitro engine, or radio system with a new system at a savings of 50% off the current retail price. Whether you use the Power-Up Program to enhance the speed and power of your model or simply maintain factory-fresh performance, you'll save both time and money. It's easy and a great deal! You can exchange your old system for a new one at your local hobby shop to save shipping and handling charges and get your new components today—see your hobby dealer for details. To upgrade to the Castle Creations Mamba Monster system, exchange your Velineon system through Traxxas, using this form.

## 1. What's being exchanged/upgraded?

- XL-5 ESC / TITAN 12T motor
- XL-2.5 ESC/Titan 380 motor
- EVX-2 ESC/ two Titan 12T motors
- EVX-2 ESC/Titan 775 motor
- Velineon VXL-3s ESC/3500 motor
- Velineon VXL-3m ESC/380 motor

## 2. Preparing the engine or motor and speed control for exchange

Make sure the engine(s) being exchanged is complete. Exchange engines **MUST** be complete with crankcase, crankshaft, piston, sleeve, connecting rod, cylinder head, backplate, and carburetor. Be sure to **KEEP** your EZ-Start assembly, header, clutch assembly, flywheel and engine mount, these items are not supplied with new engines.

Make sure the speed control(s) and motor(s) being exchanged are complete. Exchange speed controls **MUST** be complete with heatsink, motor wires with bullet connectors, and Traxxas connector. Exchange motors **MUST** be complete with wires with bullet connectors and endcap. Remove the pinion gear from the motor, as a pinion is not supplied when exchanging for a new Velineon brushless system. *Note: Traxxas only accepts complete motor and speed control systems for Power-Up exchange. You may not return a motor by itself in exchange for a new motor, or a speed control by itself in exchange for a new speed control.*

## 3. Fill out the Traxxas Power-Up Form

Fill out the form and package it with the Engine(s) or motor(s) and speed control(s) being exchanged. Be sure to include payment with the package.

## 4. Ship to Traxxas

Ship package to Traxxas pre-paid and insured. Ship to: Traxxas, ATTN: Power-Up, 1100 Klein Road, Plano, Texas 75074
