If you purchased a copy of FIFA 12, you probably noticed EA Sports left out the basic instruction manual for the first time ever. EA Sports has gone green! Goodbye printed instructions manuals forever.

Here's is the latest FIFA 12 manual, word for word.

## Precision Dribbling

Precision Dribbling brings an unprecedented level of control to your dribbling by giving you the ability to move the ball with ultra responsive touches. Use Precision Dribbling to keep possession of the ball when close to the sidelines or goal and beat defenders when in traffic or tight spaces.

Precision Dribbling is automatically activated when the situation requires a soft touch. To manually activate Precision Dribbling, hold LB while dribbling. Be aware of your situation, and utilize Precision Dribbling to bring your game to the next level.

To view all the Gameplay Controls in FIFA 12 go to the in-game controls screen at Customise FIFA -> Settings -> Controls -> Button Help.

## Tactical Defending

### Push and Pull

When in a shoulder to shoulder challenge, Press B to use a standing tackle to knock them off balance with a shoulder challenge or a small thug. Be careful when you use standing tackles as a mistimed tackle can put you out of position.

### **Contain**

Contain positions a defender in front of an attacker, but allows you to decide when the best time to launch a tackle is. "Teammate Contain" allows you to call a teammate to mark the dribbler, but they will only launch a tackle when the opportunity is right.

## **Gameplay: Tips and Tricks**

By hold RB down and pressing A or Y to pass to a teammate, if your player is skilled enough, your player will attempt to perform a flair pass. Similarly, by holding down LT and pressing B, your player will attempt a flair shot, such as a bicycle kick or diving header. These maneuvers look very spectacular, but they have a higher chance of missing their target.

### **Switch to Goalkeeper**

When defending, you can press <- to take control of the goalkeeper. You can use this to defend against many situations. If you want to unlock from the goalkeeper, simply press <- to return to controlling the full pitch.

### **Quick Throw Ins**

When the ball rolls out of bounds for a throw in, but is close enough to the line for a player to grab, they will quickly pick it up. You can press A to throw the ball to a teammate.

### **Goalkeeper Pick Up Ball**

When your goalkeeper has trapped a ball that was played to him by an opponent, you can press RB to pick the ball up if you're in the penalty area.
