

You are cordially invited to attend the 2020 Monty Python Invitational at Norman High School in Norman, Oklahoma to be held January 31-February 1, 2020. In addition to the full slate of OSSAA qualifying events, we will be offering Congressional Debate, Informative Speaking, Duo Interpretation, and Program of Oral Interpretation in the Championship division.

Qualifying debate events will consist of 3 preliminary rounds on Friday evening and all winning records will clear to elimination rounds to be held on Saturday. Championship debate events will consist of 6 preliminary rounds (3 on Friday and 3 on Saturday) and the top two teams after prelims will debate in a final round.

The docket for Congressional Debate will consist of legislation submitted to the West Oklahoma NSDA Congressional Debate docket that will be used at the District Congressional Debate tournament.

We will again offer two preliminary rounds of all Championship individual events and will make our best attempt to place two judges in each round. However, this is dependent on all schools participating in the tournament bringing their requisite number of judges. If we don't have enough judges we will not be able to use multiple judges in preliminary rounds.

If a student is participating in any Championship debate event we ask that they only double-enter into Extemporaneous Speaking as the schedule doesn't allow for debaters being cross-entered into events running concurrently with debate.

Since we are offering a robust Championship division the tournament director requires that any student who is previously qualified to the OSSAA Regional Tournament enter into the Championship division.

Entries are due by Tuesday, January 28 at 4:00pm CST. Judges are due by Wednesday, January 29 at 4:00pm CST.

We hope to see you in late January!

Sincerely,

Kasey Harrison and Kallie Ford
