

A Resolution to fix the Tax System

2

3 Whereas, under the current tax system there is an unfair distribution of taxation with the
4 top 10% wealthiest people paying over half the countries taxes, and

5 Whereas, if we continue to heavily tax these people then, eventually, they will leave our
6 country in favor of lower tax rates abroad, and

7 Whereas, if these corporations leave our country then we will face economic ruin for our
8 economy as well as government revenue, and

9 Whereas, if we were to adopt a flat tax rate then we would encourage success rather
10 than discourage it, and

11 Whereas, in current economic times we cannot afford any more economic hardships,
12 and

13 Whereas, if we cut corporate tax levels then they will have more capital with which to
14 expand their businesses and create jobs, therefore

15 Be it resolved by the Student Congress here assembled that all standing federal taxes
16 on American constituents be abolished and replaced by the implementation of a
17 flat tax system with a rate to be determined at a later time will be established on
18 the sale of all goods and services. This tax will affect all those above the poverty
19 line at the same fixed rate regardless of their income level in order to encourage
20 economic growth, and

21 Be it further resolved that the IRS be abolished, since compliance with the tax code will
22 be automatic with the purchase of any good or service in the economy.
